WARDEN AND COUNCIL HOSTS

County Councillors Entertain At A Delightful Picnic Held At Pt. Dalhousie.

The twelfth annual picnic of the Lincoln County Council was a most successful event of Wednesday last, held at Lakeside Park, Port Dalhousie. The picnic was the largest on record and was honored by the presence of the oldest living ex-warden of Lincoln, E. F. Dwyer.

The picnic dinner was in reality a banquet and ran all the way from delicious chicken to cake, pie and ice cream, not to forget the "Warden's cake", duly presented and thoroughly enjoyed.

Ex-Warden E. B. Osborne, of Beamsville, was the toastmaster for the short addresses which followed the dinner. Warden J. E. Lawson, North Grimsby, extended a hearty welcome to the councillors, officials and friends, to which Ex-Warden J. R. Stork replied. Reeve Blackwood, of Port Dalhousie, received the merited appreciation of those present for the fine arrangements made for the event, and Mrs. Blackwood came in for words of praise on the table decorations. Others who spoke briefly were: N. J. M. Lockhart, M.P., E. C. Graves, Ex-Wardens Fred Oakes, Fred (Continued on page 4)

BAND CARNIVAL NEXT WEEK

Big Program Arranged—Prize Drawing For Electric Refrigerator—Band Making Excellent Progress.

Preparations have been completed for two nights of fun and frolic on Thursday and Friday of next week, August 13th and 14th, when the Grimsby Band will hold a big carnival on the Library Lawn and Depot St. Keen interest is being taken in the event which promises to be an outstanding one.

On Thursday night there will be a special musical program by Unc, Dunc and Mike, Canada's greatest radio entertainers who are members of a Major Bowes' Unit which is leaving shortly for a tour of England. On Friday night there will be a gigantic street dance with music by Winnie Butler and her Eight Piece Orchestra of St. Catharines. There will also be games and refreshments.

Added interest is lent to the occasion by the prize drawing on Friday night for an electric Kelvinator Refrigerator. Tickets which are 25 cents are meeting with a ready sale, the winner of the refrigerator to pay \$1. for the machine. There will also be two worth-while consolation prizes.

Those who have not already done so are urged to secure their tickets for the prize drawing. The electric refrigerator is on display in the show window of Current and Betzner.

The committee in charge of the event and which has been planning for the carnival being put on to raise funds for the maintenance of the Grimsby Band, comprises Mayor Lew- (Continued on page 4)

One Hundred Die During Heat Wave

Deaths in Hamilton caused or hastened by the fierce heat wave in recent weeks numbered 115 for July, it has been estimated on the basis of figures supplied by James Berry, city clerk. Topping the July average in recent years by 126, the deaths in Hamilton for the month just past totaled 240—the largest in any one month since March of 1920, when a recurrence of the influenza epidemic largely contributed to the total number of deaths.

The greatest number of deaths in any one month in the city's history was in November of 1918, when the influenza epidemic was at its height. In that month there were 329 deaths—the largest figure before or since. Dr. James Roberts, M.O.H., points out that the figure of 240 for the month just past would include both residents and non-residents who died in the city, and therefore a few of the 115 deaths in July were out-of-town persons.

Died

DIED—At Pine Grove, Ontario, on May 6, 1936, Mrs. Flora McLean on the eve of her 84th birthday. A life long and dearly loved friend of Mrs. W. C. Stephen, of Grimsby, Ontario.

Water Consumption In Grimsby During July 17,031,000 Gallons

Water pumped during the month of July at the Grimsby Waterworks plant reached a total of 17,031,000 gallons, an average per day of 552,635 gallons. This constituted an increase of 3,951,800 gallons for the month as compared with July, 1935, and an advance in the average over the month of July, 1935 of 130,700 gals.

The heaviest day's pumping took place on July 11th, when the total recorded was 830,000 gallons. The smallest day's pumping occurred on July 26th, when 336,000 gallons were recorded.

The extreme heat during the month and the consequent increase in the consumption of water, is indicated in the figures given above.

Peaches On Market Pears Sizing Well

Under date of July 31st the Fruit Branch, Dept. of Agriculture, reports as follows:

NIAGARA DISTRICT: Moderately warm with cool nights; occasional showers but lack of moisture continues in most areas. APPLES—Duchess and Astrachan now moving, mostly in 6-quart baskets. Winter varieties sizing fairly well, fungous well controlled, codling moth injury more noticeable. Raspberry and Cherry harvest about completed. Plums—Considerable drop from drought injury in some areas; first movement of Shiro in this week from Eastern area. Peaches—Greensboro, Red Bird and June Elberta of good quality now on market. Pears—Sizing well; first movement of Clifford expected by August 3rd. Potatoes—Local supplies light with considerable movement from Quebec; market firm. Other Vegetables—Crop conditions very irregular in most sections except where irrigated.

BURLINGTON DISTRICT: Light showers during middle of the week and cooler. Crops need rain badly. Apples—Transparent and Duchess moving to local markets; many orchards showing considerable sunburned fruit. Sideworm injury in some orchards; very little fungous and practically no aphids. Pears—Showing considerable russetting, probably due to frost. Plums—Red June and a few Shiro on the local markets. Raspberries—End of month will see practically finish of harvesting, crop and quality poor. Tomatoes—Staked crop generally very light; sunscald caused heavy damage and owing to lack of moisture have not sized well; a few crops grown on moist soils and crops under irrigation showing good yield of fair size. Plants grown for canning purposes generally have made poor growth. Potatoes—Demand active with sufficient supply for present time. Early Celery now moving freely to local markets.

St Catharines Pastor In Fatal Accident

Rev. Roy Frid, St. Catharines, was arrested in Toronto on Wednesday last on a manslaughter charge after Coroner Dr. Julian Loudon had investigated the death of an unidentified man knocked down at Keele street and Glenlake avenue. Frid was later released on bail.

Police said the man ran into the street and was struck by the fender and radiator of Frid's car. Frid, who had three of his children with him in the car at the time, said he had no opportunity to avoid striking the man. The injured man was picked up by a passing motorist and taken first to a doctor's office, then to hospital. He died before being admitted.

Honey Crop Higher In Quality But Less

That the honey crop is very much less than was anticipated earlier in the season is the report coming from nearly all the apiarists in the district, who are now in the midst of their harvest, the estimates running from 50 to 60 per cent. of last year's crop. At the present time it is all the bees can do to find food enough for themselves without drawing on their reserve stores in the hive as there is very little bloom for them to work on.

While the crop is small there is a good demand for honey at the present time and apiarists are looking forward to better prices for their product.

Ex-Wardens of Lincoln County Join in Annual County Picnic

Ten Cars Meet With Mishap At Curve On No. 20 Highway

The curve on No. 20 highway at the west end of the village of Smithville, the scene of several accidents, again figured in crashes last week, making a total of ten cars to meet with mishap in less than a week.

A car, said by police to have been driven by Ernest Erling, of St. Catharines, skidded around the bend and crashed into a phone pole, bringing down both telephone and electric wires. In the early hours of the morning another car careened around and smashed through a fence at the Zimmerman property. Police were called, but the motorist had left the scene before they arrived.

Motorists claim the banking of the road at the curve causes cars to skid (Continued on page 5)

TOURIST ARRIVES WITH SLEIGH

The parade of misinformed tourists continues unabated at Niagara Falls. One arrived last week with a sleigh tied to the front of his car, only to be told he would have to go 1,500 miles north to find the first snow. Another wanted to know the nearest trail to Toronto, and if it were possible for him to go by car or would he need a guide. A third asked to be directed to the best point from which to view the Niagara ice bridge.

The annual picnic of the Lincoln County Council was held at Lakeside Park, Port Dalhousie on Wednesday last. Above are shown the ex-wardens who were in attendance: Left to right—Fred Haynes, J. R. Stork, R. G. Dawson, E. B. Osborne, Warden J. E. Lawson, G. A. Welstead, E. F. Dwyer, Wm. Fralick, Arthur Swayze and Fred Oakes. Below E. F. Dwyer, left, the oldest living ex-warden of the county, who occupied the chair 47 years ago, is seen shaking hands with the present warden, J. E. Lawson, reeve of North Grimsby. —Courtesy, St. Catharines Standard

NOTICE

The power will be off in the Town of Grimsby on Sunday morning, August 9th, from Five to Nine o'clock for necessary repairs. Hydro Electric Power Com.

ANGLERS' PICNIC

The executive of the St. Catharines and Lincoln County Game and Fish Protective Association have set Aug. 9th for their anglers picnic, to be held on the Grand River at York. They are planning to make this popular outing of the association a splendid success.

AWAY BACK WHEN

By FRANK FAIRBORN, JR.

THE QUINTS

Just five beautiful black haired, black eyed little babies.

And that's just about all that I, or any other mere man can write or say about them.

They are just natural, normal, well-developed, playful little cherubs, the same as you would see in anybody's back yard, except that they have the distinction of being the only living Quintuplets in the whole, wide world.

Nothing that I can put on paper can convey anything of a special interest to you about them. You must see them and watch them at play to really appreciate them.

I witnessed them at play in their glass-fenced playground. Being gazed at by hundreds of people from all walks of life every day, they are unconscious of the fact that they are cynosure of thousands of eyes every week, for the one-way type of glass that encloses their playground allows the visitors to see them, but it is impossible for them to see the visitors.

The day that I was in "Quintville" the lineup was five abreast and easily a quarter of a mile long for a period of two hours. You walk in a wide door at the one end of a long building that immediately adjoins the playground, move slowly around the play-

ground and out through the doors on the other end of the building. You see the kiddies at play in their yard. One of them was doing her darndest to stand on her head, during my visit, one was playing in the sandpile, two of them were having a friendly scrap for the possession of a small sand pail, while the fifth was sitting, quietly day dreaming, on one end of the tetter-totter. There was no one in the yard with them except a nurse.

The old farm house, partly of log and partly of rough lumber construction, where the babies were born, stands right beside the new highway that has been built in to the farm from Callander village. The Nursery is built a little east of the house and about a hundred yards back from the highway. This highway is a new one rushed to completion by the Ontario government last year in order to accommodate the thousands of people that were flocking to see the kiddies. The road is being continued on west this year, to where I could not find out, and two hundred yards from the nursery a gang of men were blasting out a rock cut, but the detonations from the blasting did not seem to bother the Quints in the least.

Across the road from the old home is a huge refreshment stand where ice cream, soft drinks and sandwiches are dished out by the carload. That stand and the souvenir stand are certainly doing business on a T. Eaton Co. scale.

A second stand of some kind is now being erected for the two midwives of the quints. The two big stands now in use are operated by Pa. and Ma. Dionne, although they are very seldom seen by the visitors.

It is eight miles from Callander to the Wilderness Nursery of the babes, but that does not stop people from all points of the compass from visiting them. Six and seven hundred cars containing in the neighborhood of 2,500 people visit this spot every week-day with over double that number on Saturdays and Sundays. There is a regular bus service from North Bay and it sure is doing some business as are the Gray Coaches from Toronto.

So far the record day has been 1760 cars and 6,000 people. Then you wonder why the gas and oil stations and hot dog stands in the whole North Country are all getting rich. The quintas have certainly made the North a mecca for tourists this year.

You can easily realize the amount of money that this great horde of people is leaving in the North every day, but fortunately it is being spread all over the North and not just in one or two spots. From eight in the morning until five in the afternoon Callander is besieged with people, but after supper it is just its old peaceful self. The crowds have all gone. North to North Bay and the mining and (Continued on page 8)

Dept. Warns Against Glaring Auto Lights Must Adjust Lenses

One of the reasons for the increased seriousness of night accidents will be obvious to any driver who has experienced the stabbing sensation on the eyes of a pair of powerful, glaring headlights, and who has had to grope along, temporarily blinded and in fear of plunging off the road or into the oncoming traffic as the result of such blindness, the department of highways warns.

This accident cause has become more serious in recent years, for with the higher speeds now prevailing, many drivers are using their bright lights to enable them to see far enough to make this extra speed safe. Another reason for glaring headlights lies in the simple fact that too many drivers neglect to see that the lights are in proper focus and alignment.

But, whatever the reason, there is seldom any justifiable excuse for the condition. Modern cars are equipped with a dimming mechanism which was put on the cars to offset the dangers brought about by the use of more powerful lights, and it is a simple matter and an act of courtesy to see that the lightbeam is depressed when other traffic is approaching.

Work On New Highway To Start At Once Grading To Begin

First unit of a new Toronto-Niagara Falls highway route will be commenced immediately with the awarding of a contract for grading of six miles of the new 90-foot road east of St. Catharines.

This section of the new highway which will provide a direct route from the Burlington cut-off to Niagara Falls was included in \$1,500,000 worth of road contracts awarded by the Ontario Department of Highways to-day. The new road to be constructed over two or three years will be routed on an almost straight line from St. Catharines to Niagara Falls. It will provide a 20-foot traffic lane, and 10-foot shoulders on either side of a 30-foot boulevard.

Chicken Thieving In Niagara District

The theft of chickens in the district is becoming more alarming as reports of losses from various farmers indicate. Last week Robert Emslie who resides west of Silverdale, had his coops entered and a quantity of fowl taken, while last week Leon Smith, a St. Anna farmer was robbed of 86 roosters and 30 hens. These thefts mean much to the farmers and the loss over a period of a year reaches a large figure. Many suggestions are heard that either the township or county arrange for a constant night patrol through the district to insure protection. Several farmers are keeping watch at night with shotguns at hand. (Continued on page 4)

STREET FAIR BIG SUCCESS

Bazaar and Cafeteria Tea Largely Attended—Holiday Activities At Grimsby Beach.

An outstanding event of the season at the Beach was the Street Fair and Cafeteria Tea held under the auspices of the Women's Improvement Society on Monday, Civic Holiday. Bell Park and the grounds in front of the cottage of Mrs. Martin were utilized and the event attracted an unusually large number, the net amount raised being over \$250. It proved a most enjoyable and successful event. The Street Fair was officially opened by Mr. John Harold, president of the Beach Cottagers' Association, generous patronage being given the fancy work booth, treasure table, white elephant, fish pond and country and grocery store, as well as the Cafeteria Tea.

The lawn bowling greens and tennis and shuffleboard courts were also made full use of during the day while the holiday was brought to a happy conclusion with a concert by the Grimsby Band, the numbers given being greatly appreciated.

Rev. John F. Johnstone, D.D., Minister of the First Presbyterian church, Hartford, Conn., a graduate of Knox (Continued on page 4)

IMPROVEMENTS AT SUPREME CANNERS

Employees Housing Accommodation Increased—New Smoke Stack Erected—Platform Extended.

During the past few months the factory and grounds of the Supreme Canners Limited, of which Mr. E. D. Todd is the capable manager, have undergone material improvement, everything presenting a clean and attractive appearance, as a visit to the establishment discloses.

The interior and exterior have been brightened with coats of paint, while additional machinery has been installed which will promote the efficiency of the plant and facilitate the handling of the large quantities of canned fruit and vegetables prepared and shipped from this factory.

Included in the improvements made is the erection of a one hundred foot smoke stack which is so constructed as to prevent the black smoke from going into the air, in this way making for pleasant conditions for those residing in the neighborhood. Extensions to the receiving platform, have also been made, as well as a new weigh scale installed and everything is in readiness to handle the produce brought in by the farmers of the surrounding district.

Additional housing accommodation has been provided for the employees of the factory by additions to present buildings and changes made in the quarters utilized for this purpose. Upwards of 150 are employed by the Supreme Canners when the season is at its height.

The grounds surrounding the premises have also been beautified with attractive flower beds and the entire premises present a most creditable appearance.

Firemen's Convention Held At Oakville

Thirty-four companies and eight bands took part in a parade which marked the climax to the four-day Western Ontario Firemen's Convention held in Oakville during the week-end. Forming up at Victoria Park over 1,000 firemen marched through the town in a parade a mile and a half long to Trafalgar Municipal Park, where various sports competitions were organized. In the midst of the festivities the Oakville Brigade was summoned away to help the Port Credit Brigade combat a dangerous grass fire at Erindale and when a call for more firemen came a hundred visiting firemen volunteered. The Brigade and Chief coming farthest distances were from Petrolia. Winners of the competitions, parade, Class A. Armstrong Trophy—Petrolia.

Class B. Mayor Jacobs Trophy—Port Colborne, Chiefs' race—J. Wilson, Ward 1, York Township; J. J. (Continued on page 5)

CARD OF THANKS

Mrs. Hurst and family wish to thank their friends and neighbors for their kind sympathy and floral tributes in their bereavement.

"Magic Stones" Seem To Change the Luck Of Childless Couples

TORONTO. — Dr. Allan Roy Daeoe recently told the advertising and sales club of Toronto that Callander's "magic stones" supposed to change the fortunes of childless couples, continue in demand, and "we have a man in our back yard whose chief job is breaking up stones to keep a box full of hopeful visitors."

Requests for the stones have come from all parts of the world. "It's funny," remarked the physician, "but a number of childless couples who came up last year, actually came back this year with children."

The doctor said the quintuplets "aren't such a gamble." In their early life if a firm advertised that they ate a certain food and the babies had died, rival firms could have said, "look at what happens to babies that eat so and so's food," but now they're old enough for any mishap to be blamed on other things than food.

The little Callander physician let it be known the quintuplets have had a spanking, "although I've had my doubts about procedure sometimes."

"I've seen Marie put back to bed as many as 71 times before she stayed there," he said.

"We're trying to bring the babies up as an example to all mothers of what can be done. We use only foods that every mother can afford. We have the big advantage of having no dimensions between mother and father and other fond but disagreeing relatives."

Farm Loans Interest Cut

Now 5 Per Cent; 5,000 Canadians Benefit by New Ottawa Action

OTTAWA. — Good news for 5,000 borrowers from the Canadian Farm Loan Board was announced by Finance Minister Crerar recently in the reduction of the interest rate to five per cent. Those who had borrowed prior to October 12, 1934, on first mortgage, have been paying at the rate of 6 1/2 per cent., and those borrowing between October 12, 1934, and May 22, 1935, paid at the rate of 5 1/2 per cent.

Effective as from July 31, 1936, all first mortgage loans will bear the rate of five per cent., which has been in effect on loans negotiated since May 22, 1935.

Finance Minister Dunning has completed arrangements for refinancing, at a reduced cost to the board, of outstanding bonds, issued by the board previous to 1935, and held by the Dominion Government.

This refinancing was completed on July 1, enabling the government to pass the savings along to the borrowers who continued to pay interest at the high rates in effect in the earlier years of the board's operations.

Approximately \$10,000,000 in outstanding loans will be affected by the interest reduction, some of them going back to the start of the board's operations in 1925.

Primarily the Farm Loan Board operated only in those provinces in which the provincial government enacted supplementary legislation. Ontario, Saskatchewan and Prince Edward Island did not come under the act.

King Edward May Visit the Dominion

Reports He Will Tour Canada After His Coronation

LONDON.—Rumors in court circles have it that the king may visit Canada and possibly the United States after the coronation next year.

It is said the king would go to Ottawa and then to his favorite E.P. ranch in Alberta, returning via New York.

Traveling as the Duke of Lancaster, the story goes, His Majesty would stop with friends on Long Island, where he visited as the Prince of Wales, and would make a courtesy call on the president.

Official sources in London and Ottawa said they had no knowledge of reported plans for a visit to Canada and the United States by His Majesty.

A Camera Sets Type

Fifty years ago the linotype machine set and cast the first lines of type in a newspaper office. The invention marked the greatest advance in the printing since the d. of Gutenberg. Scores of attempts had been made to set ordinary foundry type letters mechanically. Not one was good enough to interest practical printers. Then came Ottmar Mergenthaler with the bold idea of a machine which would make its own type and cast it, not letter by letter but line by line. Faster and cheaper composition, better printing, a new dress of type for each job were the immediate gains.

In a Mergenthaler linotype machine the compositor operates a keyboard much like that of a typewriter. As he plays upon the keys brass matrices fall out of a magazine and arrange themselves into lines of words which are automatically justified. Each matrix carries a sunken letter. When a line of matrices is complete, molten lead is mechanically forced against it. Thus a whole line of raised letters is cast. The matrices are then lifted automatically to the top of the machine, sorted out mechanically and returned to their proper channels in the magazine to be used over again.

In the old days a newspaper or a book was printed directly from type. Today fast printing of large editions, especially of newspapers and magazines, demands additional steps. Copper electrotype plates are made from the cast type, and from these magazines are printed. In newspaper offices the page of type, locked together in a chase, is pressed into thick pulpy paper to form a "mat" in which the letters are sunk. Molten lead is poured upon the mat by machine to form a stereotype. And it is from stereotype plates that newspapers are printed on fast web presses.

In addition to this relief method of printing there are also the planographic and intaglio processes. In the planographic process both printing and non-printing surfaces are on the same plane, but the type matter is photographed and then fixed as a fatty image which repels water but holds ink.

In the intaglio the type matter is photographed on and etched below in the plate surface. Flood the plate with ink, then wipe it clean and ink remains in the sunken letter. Press a paper against the plate and the ink in the recesses is literally sucked out and the result is readable print on paper.

Evidently much time and money could be saved if the steps between typesetting and printing could be reduced in number. So at least a score of inventors have turned to photography. Suppose printed letters were assembled into lines of words all in the black and white. Suppose that a photograph were made of these lines. Suppose that a photo-lithograph or photoengraving on zinc or copper were made from this. We would have a printing plate, one that could be electrotyped if need be. Assuming that the original "copy" has been corrected for typographical and other errors there would be no need of proof-reading.

The latest and to the commentator the simplest and most promising of all these efforts to do away with the type casting is that of Samuel L. S. Friedman and Dr. Otto L. Bloom. It is these two inventors seem to be more practical than their predecessors it is because they have adapted the Mergenthaler machine to make the necessary photographs.

Look at the Friedman-Bloom machine as it is disclosed in a recently granted patent and you see the familiar keyboard, the familiar magazine in which the matrices are contained and the familiar matrices themselves. But the matrices carry not the usual engraved letter but a letter in black and white.

Through the operation of the keyboard in the usual way a line of matrices is assembled and justified. Instead of a lead casting device there is a camera. The assembled letters are photographed line by line on a length of film. By moving the camera backward or forward the type can be reduced or enlarged to any reasonable size.

Several hundred lines can be set up on a continuous roll of film. By interposing special screening; various letter designs and backgrounds can also be incorporated — something now impossible with any type or line-casting machine. From the final roll of film a photolithograph or photoengraving is made. The rest of the printing process remains what it is.

What She Thought

She lay in her wicker carriage
A-looking at the skies;
The hood was somewhere,
The sun was in her eyes.

Perhaps she was a thinking—
I'm sure that babies do—
"How would you like a bib-pin
A-sticking into you?"

"How would you like some lace things
A-sewed on to your cap,
And tight so tight by some one
You couldn't take your nap?"

"How would you like a lig strap
A-strapped across of you?
I know you wouldn't like it;
Or'd cry, that's what you'd do."

Off on Motorboat Trip Across Atlantic

The Arielle, 60-foot motorboat in which Durand-Couppel de Saint Front (inset), French marine painter known as Marion Marie, is attempting to cross Atlantic alone, pictured leaving New York on daring journey.

Woman of 105 Makes 200-Mile Motor Trip — Then Crochets a Bit

ROCHESTER, N.Y. — Arriving well enough to do a bit of crocheting before supper, Mrs. Mary Jane Bushey, 106, recently completed a 200-mile motor trip from her home in Ogdensburg.

She came to attend the funeral of her son Edward, one of her 14 children, five of whom are still living.

Mrs. Bushey does her own housework, maintains her reputation for fine sewing, crocheting and quilting. Deafness is her only handicap. She acquired that at the age of 98 when she rescued a man from a river.

Born in Quebec, Mrs. Bushey still regards French as her mother tongue after 90 years in this country. She says her prayers in French.

Young Net Champion

Patricia Canning, new 14-year-old junior girl tennis champion of the State of Washington, pictured after her victorious fight for title in Seattle. She defeated Virginia Wolfenden of San Francisco, 6-4, 6-2. Patricia, who lives in Alameda, Cal., is one of the youngest champions ever crowned in the 46 years of the annual meet.

"War must be debunked, its horror impressed consistently on men and women. No intelligent person will want to enter into it knowing what it means." — Sherwood Eddy.

"Each generation has a different problem. If the rules are not changed fast enough, and in the right direction, the game eventually breaks up in a riot." — Henry A. Wallace.

"Right conduct is essentially bound up with truth." — J. B. S. Haldane.

Dr. Dafoe Praised By Lieut.-Governor

Dr. Bruce and Party Pay Visit to Dionne Quintuplets

NORTH BAY, Ont. — North Bay was the first place visited on a tour of Northern Ontario which took Lieut. Governor Dr. H. A. Bruce, Mrs. Bruce and their son Maxwell as far north as Moosonee on James Bay.

The stop in North Bay was brief. While here the party made a trip to the Dafoe nursery near Callander where they were received by Dr. A. R. Dafoe and presented to the Dionne quintuplets.

Speaking at a civic reception in North Bay, Dr. Bruce paid tribute to the work of Dr. Dafoe.

"The fact that the quintuplets are alive to-day stands as a tribute to the worth of a sound program of ordered existence, backed by sound scientific knowledge," he said.

Admitting she felt a thrill at "actually seeing the babies," Mrs. Bruce said she had long looked forward to the visit. She marvelled at the patience of Dr. Dafoe with the children. This is Mrs. Bruce's farthest north trip, although she has visited Sault Ste. Marie.

While the party was at the Dafoe nursery, Mayor W. G. Bullbrook visited Mr. and Mrs. Oliva Dionne at their farm home and extended congratulations on behalf of the viceregal party.

Art of Kissing Lost to Movies

New Ways of Showing "Sizzling" Love Have Superseded the "Clinch"

HOLLYWOOD. — Kissing is becoming a lost art in the movies. Nowadays, even the longest and most lyrical cinema love story has an irreducible minimum of kisses in the total footage, seldom more than four, usually less. This contrasts sharply with the adolescent age of Hollywood when a picture that came along with fewer than 15 epidermal collisions was considered practically a travelogue.

Old-time directors contrived to have the heroine's make-up dismantled about three times per reel.

But there are only two kisses in 14 reels of "The Lost Horizon," four in 12 reels of "Anthony Adverse," two in 10 reels of "Rhythm on the Range," and four in "Romeo and Juliet," to name just a few of the newer epics.

Directors have two answers for the decline and fall of osculation. "In the old days, the only way they had of showing that man and a woman were atlixing with attraction was to throw them into a clinch," a director said. "But with the passage of the years, a whole lot of different ways to get over the same thought has accumulated. That's one thing."

"The other is the censor."

"The real period of sufficient production and adequate distribution is ahead of us." — Henry Ford

"Self-sacrifice to be heroic, must be a voluntary sacrifice and a deliberate sacrifice." — A. A. Milne.

Ancient Scourge

Comments the New York Times—

A news item about leprosy is an oddity these days; the scourge of the Middle Ages has been confined largely to the tropical and sub-tropical sections of Asia and Africa, where dampness is combined with heat. But there are still estimated to be some 2,000,000 sufferers.

Methods have changed greatly in caring for the dread disease, which eats away skin or nerves or both. In medieval times persons suspected of carrying the contagion were treated with superstitious abhorrence; often they were forced to live in the forests, wearing bells to warn the healthy; often, too, persons suffering from simple skin ailments were segregated with real lepers.

Leprosy is now understood to be a bacterial disease. Healing injections have been devised, and leprosurians are undertaking the function of curing the infection in its early stages rather than serving merely as segregation centres for hopeless incurables. Uninfectious cases are distinguished, and the patients released.

Lionized by Mexicans

Charming Senorita Susana Del Rio Usher, designated queen of the Lions Club of Mexico, will grace the southern republic's delegation to Lions' convention at Providence, R.I.

Dogs Play Important Part in Games of Little Princesses

LONDON. — Great Britain's little Princesses Elizabeth and Margaret Rose, were excited recently over the possibility they might be allowed to peep in at King Edward's reception in Buckingham Palace.

The two daughters of the Duke and Duchess of York regard the reception as an important part of their lives, which also includes dogs and dolls and horses and penguins.

There are lots of dogs at Windsor, and they play important roles in the games of the Princesses, who stand second and third in the line of succession to the throne.

They inherit their fondness for dogs from their father, the Duke of York, who is something of an expert in canine matters and from whose kennels come Jane the Corgi,

Shoe Industry Is Keeping In Time

Essential for a Woman to Know How to Care for Shoes

BOSTON. — The greatest revolution in fashion design "since the whalebone corset was relegated to the scrap-heap," has occurred in the shoe industry within the past two years, according to Miss Ruth H. Kerr, fashion adviser. Miss Kerr, an authority on style trends, says this revolution is due to the discovery that shoes designed specifically to complement the natural contours of the human foot contribute materially to the general smartness of a woman's appearance.

"In place of the exaggerated narrow toe of a few years ago, and the still more fantastic 'needle to' of the 90's we now have nature 'lasts,' shoe sculptors have found the proportion of the human foot is in the direct relation to the proportion of the individual measurements of the body. The problem therefore has been to bring the individual foot—be it long or short, wide or narrow—into conformity with current style trends."

"The long narrow foot that used to be admired because it was 'aristocratic' is not always the fashionable foot today," she explained. "Short ramps, lower heels—all are part of the stylists' scheme to bring the shoe into relation to the rest of the costume."

"It is essential for a woman to know how to take care of her shoes. The first step in shoe care, is to place the shoe on a tree immediately it is removed from the foot. The second step is to choose the correct cleaner for the type of leather."

A Baldwin Uniform

(Winnipeg Tribune)

Not so long since the publication of a newspaper picture of Stanley Baldwin in a naval uniform, gave rise to the question, What's his rank in a sea-going sense? It was explained that he was an Elder Brother of Trinity House.

What is Trinity House? To many people that's a question they could not answer, or could answer only vaguely. Nevertheless, "The Guild Fraternity or Brotherhood of the Most Glorious and Undivided Trinity and of St. Clement in the Parish of Dorsford Strand" is the oldest guild of mariners in Britain, probably in the world.

Actually, though not formally, the guild would seem to have been founded in the 12th century to prevent wrecking and pillage of vessels on the English coast and to help shipwrecked sailors and to provide beacons Henry VIII gave the present Trinity House its charter in 1514. Today it provides pilots, breaks up wrecks dangerous to shipping, builds and maintains the lighthouses, lightships, fog signals, wireless directional stations and beacons, and buys along about 2,400 miles of the English coast.

Why Cow Drinks

A cow must drink large quantities of water because 87 of every 100 pounds of milk she produces is water. Thus a cow producing 20 pounds of milk daily will require about seven gallons of water. When she fails to drink enough, production drops. Herds receiving liberal quantities of drinking water at moderate temperatures are more profitable than those insufficiently supplied. Water must be raised to 99 degrees before it can be used in the animal body. This requires feed that cannot be used in milk production. Furthermore, very cold water, although available in sufficient amounts, will not be consumed by the cow beyond her absolute needs.

Mimzy the Labrador, and the rest of their furry playmates.

Many of their games centre around a miniature house, a gift to Princess Elizabeth on her sixth birthday, which has a thatched roof and is completely equipped with everything that a model home should have.

As befits the younger, Princess Margaret Rose is the more active in garden romps. Princess Elizabeth is rapidly approaching an age of dignity and discretion, having passed her 10th birthday last April.

Princess Margaret Rose will have a birthday on August 21, when she will be six years old, and these days are much colored with anticipation of what the anniversary will bring forth.

The younger Princess likes other creatures almost as much as dogs. Penguins, for instance. She also longs for a pony of her own. Princess Elizabeth already has a pony.

Princess Margaret Rose gave early evidence of keen interest in animals. At the age of three, when looking through a fairy-tale book with the Duchess of York, she came to a picture of a dragon and exclaimed: "Look, Mummy — what a darling little Loch Ness monster!"

Lady Astor's Frankness

Observes the Windsor Star—"I like being rich. I wish I had more money," Lady Astor told Mr. Arthur Greenwood when the two crossed swords in the British House of Commons during a debate on unemployment.

Whether they admit it or not, there are few people who are not of the same mind as the well-known woman Parliamentarian. Quite true, some persons have more money than they need, but it is useless to launch a continuous attack against them because of pure jealousy. Agitators and those who decree the rich on every possible occasion would not be adverse to having a lot of currency in their own pockets. Most of us would be glad to possess more than we have, even though we are able to live comfortably. Money may be the root of evil, but the majority of natural beings are willing to take a chance.

It was to be expected that Lady Astor would stir the feelings of Mr. Greenwood and other Labor members in the House, but they admired her frankness when she expressed the wish she might have more money.

City Child

Eleanor Graham in The New York Times.

I am a city child. I know no name for these small, snowy blossoms that I touch
In reverence and love. Expect no shame

From me because my knowledge is not such
That I can call the birds or name the stars,

Or speak familiarly about the crops, Or choose the fruit you want from unmarked jars.

I cannot tell your barley from your hops!
But I can love your flowers and your grain

And watch the wings of birds that swoop and dart,
And I can let your piercing points of rain

Run gentle daggers deep into my heart.
Oh, I can love the beautiful and wild

Although I am an alien city child.

Laboratory Side of Zoology Offers News Profession to Women

NEW YORK.—When Gloria Hollister, the yellow-haired girl who has been nearer the floor of the ocean than any other living woman, came back not long ago from the zoological expedition she headed to British Guiana, South America, she announced that nothing exciting had happened.

That's all in the point of view, however. Miss Hollister, bred to adventure, thinks little of travelling over hundreds of miles of jungle—some of it never before seen by a white man—in a one-motor plane.

The zoologist, who, though still in her twenties, is a member of the New York Zoological Society, said: "The rainy season began early this year so we hurried our studies in order to save several thousand feet of film and photographs from being ruined by rain and dampness. We studied and photographed birds, animals and insects. Since we could see only a short distance ahead of us when travelling in the jungle on foot, I found reconnaissance by an airplane invaluable in gaining a general knowledge and picture of the area."

Once, when the party of 20 was travelling by boat on a lonely river, they discovered, on wakening on boat had been sunk by the heavy torrents and heavy rains in the night. But it was raised and the party continued its journey.

Miss Hollister, whose expedition was conducted under the auspices of the New York Zoological Society, is heartily in favor of her profession as a woman's work.

"Zoology is an excellent field for girls, especially the laboratory side," she said.

Oklahoma Juries

Comments the Wall Street Journal—After waiting an unreasonably long time for a jury verdict in several cases, an Oklahoma city judge got an idea. He had comfortable chairs removed from the jury room and substituted hard-seated ones for them. Then he timed his jurymen and found they reached verdicts averaging an hour less time than before. Deciding to keep up the good work, he took out even the hard-seated chairs and made the jurymen stand while deliberating. That cut down the time still more.

The judge's last move was to nail down the windows, causing the air to become stale in a very short time—which reduced deliberating time of the jury still further.

"Many successes are due to the presence of mind with which the vigilant observer knew how to seize the opportunity offered by Luck." — Andre Maurois.

"With all my heart I hope and indeed I pray that never again will our world and generation be called on to face such stern and terrible days." What effect will this appeal of the King have on the power-hungry war lords of Germany, Italy and Japan. How will the common people of those countries receive it? Will nothing satisfy the ambitions of those dictators other than the spectacle of devastation and slaughter? Have their people the remotest desire to welter in their own blood or writhe and choke in an atmosphere of deadly gas?

"Humanity cries out for peace!" The King speaks not only for the British people but for humanity which embraces the men, women and children of all nations whose one desire is to live out their little lives in peace.

Cunipitau Mines Ltd. has optioned the Alexo property consisting of approximately 500 acres in the Temagami area of the brand of the T. & N.O. at the Alexo siding, according to B. W. Watkins, president. It is a high grade open cut property which, according to government reports shipped 50,000 tons of 4% per cent nickel to the Mond Nickel Co. during the war. The developed reserves in the open cut are estimated at some 25,000 tons of similar grade. Officials point out that the acquisition of this property follows the program adopted to provide adequate ore reserves for future larger development.

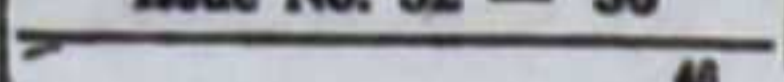

British Motor Statistics

The return for 1945 is the first since the imposition of the speed limit in built-up areas. Of the 121,757 speed limit offences, 80,070 related to built up areas, and 35,635 to goods vehicles. "Speeding" fines totalled over £133,000.

Against "failing to stop at traffic signals," 31,427 offences were recorded, at pedestrian crossings 7,603, and "failing to stop at police signals," 1,124.

have television.
And when she has a look at him

"No. He was a changed man after the first kiss."

Shutting Out War Gas

Costs of shutting out deadly gases in time of warfare coming down in Great Britain. It costs less than \$5 to make a room gas-proof as a protection against air-raids. The expense varies somewhat according to the size of the room. Sir John Simon, the Home Secretary, is bending every effort to find the simplest methods of protection at still lower costs. If a room is in reasonably good repair the \$5 will cover the cost of blankets and material to construct an 'air-lock at the outer door of the house.

Vesuvius, the famous volcano, is now yielding potash, which is useful in agriculture.

Summer Pruning

As results show, trees can be pruned as well in Summer as in Winter or Spring. There is no serious after effect of Summer pruning where pruning is needed badly. Weak and crowded wood can really be more easily discovered in the Summer time with branches in full leaf. It is easy at this time of year to locate the branches that add nothing but brush to the tree. A little more care will be needed to keep from stripping the bark back around cuts, but this is easily accomplished.

BAND CARNIVAL

NEXT WEEK

(Continued from page 1)
is, chairman, and Messrs. P. E. Wilkins, William Lothian and V. R. Farrell, members of the Industrial Committee of the Town Council; C. D. Millard and D. C. Thomson of the Grimsby Business Men's Association and Gordon Lipsett and F. Durham of the Grimsby Band.

The object sought is to make the band self-sustaining and it is anticipated that the committee will be retained following the Carnival until the objective is attained.

The suggestion has been made that the members of the band be equipped with uniforms which would enable them to present a smart appearance and place them in a better position to accept engagements. These, it has been ascertained, can be secured at a reasonable price and it is hoped that finances will ultimately permit of equipping the bandmen in this way.

The Grimsby Band, under its leader, Mr. Timms, has been filling an increasing number of appointments both here and out of town, and in its playing is showing most encouraging progress. The organization asks for and would much appreciate the continued support of the citizens of the town through their patronage of events sponsored by the organization.

BEAMSVILLE BIDE FETED

Prior to her marriage which takes place on Thursday, Miss Florence Harvey, of Beamsville, has been the guest of honor at various showers tendered for her by friends. On Thursday of last week Misses Dolly and Hazel Stevens, of Beamsville, entertained one hundred and twenty-five friends at a miscellaneous shower. On Friday evening a shower of pink crystal was held by Miss Audrey Stevens at Beamsville, and on Tuesday evening the young people and several members of St. Andrew's church, Beamsville, gave a party shower in her honor. Miss Harvey was the recipient of many lovely gifts from her friends.

WILL BE CUT OFF RELIEF IF THEY PATRONIZE BEVERAGE ROOMS

Relief recipients of the town of Merriton who are found frequenting beverage rooms will be cut from the relief lists, the Welfare Board decided last week, in slashing from the roll two men who allegedly had been seen in a Merriton beverage parlor. The board also ruled that the recent order requiring the men to register every day at the Town Hall must be observed, and that the penalty for non-observance would be removal from the relief rolls. The order, issued some time ago, had not been generally observed and the action of the board is expected to enforce it.

TO ERECT NEW STORE

Work on cleaning up the site of the old Canadian Department Store, St. Catharines, prior to the erection of the handsome new three-story building has started.

The C.D.S. was completely destroyed by fire on March 7th and 8th. At the end of March temporary quarters were taken over in two separate locations on St. Paul street and these will be continued in operation until the new \$150,000.00 home is completed.

Get 30 Bushels Wheat To Acre

Thirty bushels of wheat to the acre is a good average of the grain already threshed on farms in the south section of the township of Clinton. Farmers who are turning in this average are well pleased with results, and expect to make some money if other crops fall down. Three farms report four hundred bushels of wheat each and one of six hundred to date. Wheat was the one grain that had progressed almost to maturity before the drought and heat wave could give it a setback.

WARDEN AND COUNCIL HOSTS

(Continued from page 1)
Haynes, G. A. Swayze, Wm. Fralick, G. A. Walstead and E. F. Dwyer.

The winning ticket for the draw at the dinner table was held by Miss Gwendolyn Nickerson.

The spirited contested sports followed almost immediately after the dinner, with Deputy Reeve Robert Dawson, of Niagara Township, in charge. Winners of the various events were: Boys and girls, 5-7—Betty Lawson, Roland Chivers; boys, 7-9, Martin Hersey, Reg. Lawson; boys 9-12—Bert Jackson, Ross Lawson; girls, 9-12—Joyce Mogg, Shirley Preston; girls, 9-12—Norma Lawson, Ruth Shelton; boys 12-16—Don Blackwood, Bert Jackson; girls, 12-16—Helen Jackson, Mary Yarrill; men's race—Elmon Cosby, Harry Parker; ladies' race—Blanche Stork, Ada Welstead; county council—Wm. Nickerson, Robert Kennedy, Robert Dawson; fat men's race—Ernie Hack, Frank Weir; ex-Warden's race—Robert Dawson, J. R. Stork; married women—Mrs. Groff, Mrs. Chivers; time race—Mrs. H. Swayze, Mrs. S. Sterling; clothes race—Helen Jackson, Mary Yarrill and Dorothy Paxton; needle race—Mrs. Chivers, Mrs. Shelton; shoe race—Ada Welstead, Bessie Graham. The rolling pin race was changed to a ball throwing contest when the mere men decided that it would be dangerous for the women to throw a rolling pin. The winners were Shirley Welstead and Mrs. L. Swayze.

The feature of the afternoon was the ball game between councillors and their sons and the visitors. This was a five inning match in which a pitcher was permitted to pitch only one inning. The visitors carried off the prize by a score of 16 to 12.

The two teams were comprised of 11 men each, extra fielders being permitted. The line-up: Visitors—F. Parker, A. Roland, E. Cosby, H. Parker, Fred Culp, N. J. M. Lockhart, W. Beaton, A. E. Simms, J. R. Stork, J. Dundas and Keith Roland. Council—E. Hack, A. Groff, R. Dawson, S. Young, P. Graham, R. Kennedy, S. Sterling, Don Blackwood, Wm. Nickerson, Boulter and N. Lawson.

During the afternoon the serving of lemonade, ice cream and watermelon completed a perfect outing.

GET WATER AT VILLAGE

A number of residents from Community Beach and other places on the shore whose wells have gone dry are getting their supply from the village hydrant at Stoney Creek. This is the first time such a thing has happened to the cottagers.

Local Items of Interest

Union services of the Baptists and Presbyterians will be held in Trinity Baptist church next Sunday. Rev. I. B. Kaine will preach morning and evening.

Traffic through the district over the week-end and holiday was unusually heavy with but a minimum of accidents reported.

Rev. A. F. Binnington, of Caledon East, will occupy the pulpit in Trinity United Church on Sunday morning. The soloist will be Miss May Buskard, of Brantford.

Rev. J. E. J. Miliard, of London, officiated at the service on Sunday morning last, preaching with much acceptance.

Many local citizens have reported the theft of bottles of milk from their verandahs during the early morning and it is alleged that transients are responsible.

Mrs. William Whittaker, Ontario Street, who had been out of town on a holiday, found on her return that thieves had jimmied the kitchen window and ransacked the entire house. Several articles of jewellery were missing. It is understood police secured the services of the Hamilton police department finger print expert in an effort to get prints. Several other break-ins locally have resulted in the loss of cash and articles of gold.

A township resident appeared in police court on Tuesday charged with assault, by a former employee. The case was dismissed.

In the Fruit Belt Softball League, Beamsville and St. Ann's will play at Grimsby Beach Thursday night to decide who will meet Stoney Creek in the Finals, which will be played Monday, Wednesday and Friday of next week.

The Grimsby Band will give another of its Sunday evening concerts on the Library Lawn on August 9th. Conductor F. W. Timms has arranged a splendid program, consisting of secular and sacred selections, and vocal numbers. Citizens are cordially invited to attend.

CHICKEN THEIVING IN NIAGARA DISTRICT

(Continued from page 1)
A further case of chicken thieves has been reported in this area. Last week 45 young turkeys were stolen from the farm of Mrs. Boryk, west of Fenwick. This is one of the worst epidemics reported to police in some time, and authorities say that there are probably many more cases that are never heard of.

Provincial police recommend that farmers report all thefts to them immediately, to give every possible assistance in checking the crimes. A new idea to help in identifying stolen chickens is to tattoo a mark under the wings of the fowl, so that if they are seen on a market, police may be notified.

Farmers desiring information on this plan are advised to write the Director of Live Stock, Recording of Brands, Parliament Buildings, Toronto.

EXECUTOR'S SALE

OF VALUABLE PROPERTY
Situate in The Town of Grimsby,
in The County of Lincoln

The Executor of the Estate of Milton E. Wilcox, late of the Town of Grimsby, in the County of Lincoln, Gentleman, deceased, will offer for sale by Public Auction at the premises hereinafter mentioned, on Wednesday, the 26th day of August, A.D. 1936, at the hour of two o'clock P.M. MOONLIGHT EXCURSION OF JUNIOR FARMERS

Final arrangements have been made for the annual moonlight excursion held by the Lincoln County Junior Farmers. It will take place this year on August 15th, from Queenstown to Toronto. The steamer Cayuga has been chartered, and the accommodation has been limited to 500. The short course picnic which is being held the same day will also work to include the sail. The picnic, which will start at Vineland, in the morning, will proceed to Queenston after dinner. Speakers will be E. F. Palmer, J. R. Van-Haaren, Dr. G. I. Christie, and Geo. Halthby, of the O.A.C.

SETTLED OUT OF COURT

Out of nearly a hundred summonses delivered by Constable Harry Greenwood to owners of dogs who had failed to purchase a license tag and who were summoned to appear in court at Stoney Creek on Thursday and Friday mornings, only ten were left to be dealt with by the magistrate, the others having settled out of court. The others were fined.

NO DATE SET FOR INQUEST

No date has been set for the inquest into the death of Professor William J. Squirrel, head of the Field Husbandry Department of the Ontario Agricultural College who was killed in a motor accident near Smithville. It is likely that the hearing will not be held until late August or early September when others injured in the accident will have recovered sufficiently to testify.

Notice To Creditors AND OTHERS

In The Estate of Nostia Kostjuk, Deceased.

All persons having claims against the estate of the above mentioned, late of the Township of North Grimsby, in the County of Lincoln, who died on or about the 27th day of March, 1936, are requested to file proof of same with the undersigned on or before 31st day of August, 1936.

After that date the Public Trustee will proceed to distribute the estate, having regard only to the claims of which he shall then have had notice.

Dated at Toronto this 30th day of July, 1936.

STREET FAIR BIG SUCCESS

(Continued from page 1)

College, and a resident at the Park, was the speaker at the services in the Boys' Tabernacle on Sunday, preaching with general acceptance. Mrs. David Hunter of Grimsby, was the soloist at the morning service while Mrs. Ion Trant sang in the evening.

A reunion of the Moore family was held at the Beach on Monday.

A large number of picnickers from Dunnville visited the park on Saturday.

A concert under the auspices of the Grimsby Beach Bowlers will be held in the Casino on Friday, August 14th.

PLAQUE UNVEILED AT PEACE BRIDGE

A plaque presented in June by the foreign delegates of the Associated Countrywomen of the World, and situated in the centre of the Peace Bridge, was unveiled on Wednesday last by Mrs. Alfred Watt, president of the Association, prior to her departure for her home in England.

Following the dedication ceremonies, the officials were guests of Frank Bridge. Dominion organizations were represented by Mrs. Anna E. Walker, president of the Canadian Federation of Women's Institutes, and Mrs. J. E. Houck, provincial convener of peace, education and foreign relations in the same body.

GRIMSBY BEACH

The work of renovating the Tabernacle has been completed and it now presents an attractive appearance. Additional accommodation is provided by an enlarged front with canopy top.

Hundreds Pay Tribute To Late Prof. Squirrel

Hundreds of former students and friends filed past the casket of the Professor W. J. Squirrel, former head of the Field Husbandry Department of the Ontario Agricultural College on Wednesday last in Memorial Hall, Guelph, where the body of the widely known agriculturalist lay in state. Professor Squirrel was killed in a motor accident near Smithville Saturday. Hundreds of men prominent in agrarian science, farming organizations, graduates of the O.A.C., prominent civil servants and representatives of organizations and academic institutions attended the funeral service and paid their final tribute to the distinguished cerealist.

An eulogy of Prof. Squirrel was delivered by Dr. G. I. Christie, president of the college, at the service in Memorial Hall. The service was conducted by Rev. C. E. Kenney, of Norfolk street United Church.

NEW MINISTER ARRIVES

Rev. J. A. Wilson, the new minister for the United church, Stoney Creek, arrived in the village on Thursday and preached his first sermon as minister of the church Sunday morning.

OXFORD GROUP MOVEMENT

At a house party, the guest can hardly avoid the experience of trying the "quiet time". Every now and then, some one, convinced that God's guidance, will help the situation, says: "Let's be quiet and listen for what God wants us to do." What impresses the guest at the outset of the "quiet time" is an awareness of a silence among the groupers which is so startling that a clock as it ticks resounds like the clatter of machinery.

During this stillness the guest might easily escape with his life unchanged. Usually he stays—and for an understandable reason. Everybody seems to be intent on making his stay as pleasant as possible.

A guest among the groupers is thus surrounded by a subtle and mesmeric influence. Hour by hour, he is meeting people who listen for detailed directions in the conduct of their lives. Inevitably ideas drift across the guest's own mind during the "quiet times," things that he always thought of doing but never managed. He is likewise sure to mention these frustrations or however they are to be described to his grouper friends. He will then be told that his "quiet time" cannot be productive of the desired result while sin blocks the view between him and God.

Nobody pushes him along the path of repentance. But, day by day, he hears people talking of their struggles with jealousy, laziness, dishonesty, wilfulness, excessive drinking or smoking and other difficulties. Naturally the interest of the guest is aroused and he wonders whether his own faults can be overcome. Then it is that the group welcomes the carefully anticipated opportunity.

The moment a guest says, "That impresses me," he is left alone with the man who impressed him. Other groupers quietly slip away. The guest becomes the personal charge of one of their number and the grouper uses what must seem to be a strange technique. He does not urge the guest to discard his sins. He talks rather of his own lapses from perfection.

As the talks continue, the grouper may say: "If you were being absolutely honest with yourself, I wonder what you would consider to be the worst thing you have ever done." Sin is approached as a matter of intellect and objective interest. It is only afterward that the desirability of putting the correction of the trouble into God's hands—this is how the groupers express it—enters into the negotiations.

In order to bring sin to the surface and as a first step toward a remedy, the guest is invited to make a complete disclosure of his offenses, here and now, to one grouper at least, however anxious he may be to shield the privacy of his soul from the rest of the world. If the particular grouper cannot persuade the guest thus to "share" his sins—as the confession is called—he at least has learned a great deal about the guest's soul-resistance. The groups are thus able to select another member of the "life-changing"

OBITUARY

MRS. HARVEY SCHOTT

There passed away on Saturday, August 1st at the Niagara General Hospital, Niagara Falls, Ontario, Irene Ludella Hurst, wife of Harvey Schott, of Niagara Falls, Ontario, and daughter of Mrs. Margaret Hurst and the late Frank Hurst, of Grimsby. Deceased who had been ill for several weeks was in her 55th year. Born in this district, the late Mrs. Schott had resided in Niagara Falls for the past fourteen years. She leaves to mourn her passing, besides her sorrowing husband and mother, one daughter, Margaret at home; one sister, Mrs. V. Barrick, Grimsby, and one brother, Frank, Grimsby.

The funeral was held on Monday afternoon from the Presbyterian church, Grimsby, with Rev. Harvey Merritt officiating. Interment was made in Queen's Lawn cemetery.

The pallbearers were Messrs. Delos Hurst, Bert Hurst, Carman Hurst, George Pearson, Kenneth Pearson and Edward Walters all cousins of the deceased.

team" who may be better able to bring the guest to a decision. The guest is passed tactfully along—perhaps as a partner for tennis—and sports, recreations, intellectual interests, all of these are mobilized as a means of intervening between the guest and his pursuit of sin. It is this organization of environment for a spiritual result that transforms the session into a "house party."

If the guest is to have his life changed according to the procedure adopted by Dr. Buchanan, he must agree to give an honest account of all his sins, vices, poses and faults, however petty, not of necessity to the whole house party, but at any rate to some individual member in confidence. This is the first step in life-changing, and, according to the groupers, such "sharing" wipes out the sense of sin. The belief in God—general and abstract even among those who seldom go to church—is revitalized by the emotional disturbance amid which belief, as it were, floods back into the mind. This, indeed, is the object of the first step.

The second step, the guest finds, is "restitution." However unnecessary it may seem to him to be, and however uncomfortable, he must do penance by reparation or apology to persons whom he has injured, however long ago the injury may have been inflicted. Personal humiliation, thus imposed on himself, puts him in the proper attitude, so it is contended, to welcome the privilege of becoming a willing instrument in God's hands.

The third step is "surrender to God, control," and the "quiet time" is now held to be fruitful of "guidance" previously withheld. This guidance becomes the rule of life in all its activities.

The groupers deny that they are mere "other-worldlings," eager to secure a safe place in heaven. Their view is that heaven is an immediacy of the present as well as a hope for the future. On "Paradise, O Paradise," they have not bestowed, it seems, much attention.

Social and Personal

Jean LePage is visiting in Hamilton with her aunt, Mrs. McCabe.

Mr. and Mrs. James Russ, of Buffalo, were week-end guests at the home of Mr. J. D. Russ.

Mr. R. A. Rittinger was in Kitchener on Saturday to attend the wedding of his sister.

Miss Gertrude Felker, of Toronto, spent the week-end holiday with her mother, Mrs. Jessie Felker, Oak St.

Mrs. Alfred LePage is visiting in Detroit for two weeks.

Mrs. James Merritt and daughter, Olga, are spending a couple of weeks at Lake Katrine and Bala.

Miss Reta McCartney, of Toronto, spent the week-end with her mother, Mrs. S. E. McCartney, Gibson Ave.

Mr. and Mrs. Roy S. Bean and son John, of Waterloo, were visitors with Mr. and Mrs. C. S. Bean on Friday.

Mrs. Harry Marsh and Mrs. Darlington, of Toronto, returned Monday, after spending a week's holidays in Grimsby.

Raymond LePage is visiting in Smithville with his aunt, Mrs. Orville Tuck.

Mrs. E. Sharpe, Montreal, is visiting with Mrs. C. J. Horne, Livingston Ave.

Mr. and Mrs. Wilfrid Lawson and Mr. and Mrs. James Dunham spent a few days this week at Huntsville.

Betty Chadwick, of Toronto, is spending this week with her aunt, Mrs. Frank Hitchman.

Mr. Stanley Bean, of Toronto, was a visitor to Grimsby on Friday en route to Oliphant, Lake Huron, where he is spending a week.

Kathleen Lambert, of St. Catharines, is visiting her aunt and uncle, Mr. and Mrs. L. F. Lambert.

Mrs. Clarence McNinch and son Ted, accompanied by Master Wallace Smith, are spending this week at Midland.

Miss Dorothy Henslip has returned to Grimsby after convalescing at her home at St. Ann's following a recent operation.

Mr. and Mrs. J. A. M. Livingston and daughter Suzanne, of Toronto, are spending a week's holiday at Grimsby.

Miss Myrtle Forman, of Toronto, was a week-end visitor at the home of her parents, Mr. and Mrs. J. H. Forman, Livingston Ave.

Miss Minnie Morrison, of Montreal, is spending a holiday in Grimsby with her sister, Mrs. W. L. Stephen, also her nieces in Dundas, Mrs. Irwin Galbraith and Miss Margaret Morrison.

Mrs. Wilson, mother of Mrs. J. H. Forman, is returning to her home at Dorchester after visiting here for the past five weeks.

Mr. William Muir and son of Paris, Ontario, were visitors in town on Sunday. Mr. Muir Sr. is the son of Rev. John Muir, a former Presbyterian minister in Grimsby.

Miss Kay McNiven, nurse-in-training at the Hamilton General Hospital, is spending her vacation with her parents in Grimsby.

Mr. and Mrs. H. Betzner and daughter Merle spent a few days this week with Rev. and Mrs. Earchman at Dorset, Muskoka, where the latter are spending their vacation.

Mr. George Mould, Grimsby Beach, who has been undergoing treatment in St. Joseph's Hospital, Hamilton, was well enough to be removed to his home on Monday but will be under the doctor's care for some time yet.

NIAGARA PARKS COMMISSION TO ERECT NEW BUILDING
At an estimated cost of \$22,500, the Niagara Parks commission will build this year a two-storey building near the entrance to the Falls View bridge. The structure will house the Parks commission publicity department and the provincial government offices. One storey of the new building will be above the bank of the river and the other below, the lower one to be equipped with large windows for observation purposes. The building will replace the present Maid of the Mist building.

—NUPTIALS—

LITTLE — WALKER

The marriage took place in Kirkland Lake on August 1, of Beatrice Walker, daughter of Mrs. Frances Walker, and the late Robert Walker, and Hugh Liddle, son of Mr. and Mrs. Thomas Liddle, of Grimsby. Rev. Mr. Graham officiating.

The bride, given in marriage by her brother, was gowned in pale blue organza and carried yellow roses. Her bridesmaid was Miss Eileen Newton, of Kirkland Lake, while the groom was supported by Mr. Arthur Hall also of Kirkland Lake.

Following the ceremony a reception was held at the home of the bride's mother, Mrs. Frances Walker, when the young couple received the good wishes of a host of friends. They later left for the south to visit the groom's parents, Mr. and Mrs. Thomas Liddle at Grimsby, after which they will visit at Brighton and Ottawa.

Mr. and Mrs. E. A. Goddard and Mr. and Mrs. McKee, of Kirkland Lake were among the guests present, Mrs. Goddard and Mrs. McKee being sisters of the groom.

WRAY—VAN EVERY

Knox United church, Beamsville, at 3 o'clock Saturday afternoon, was the scene of a pretty wedding, when Margaret Helen, daughter of Mr. and Mrs. Charles Peter Van Every, became the bride of Dr. Charles Russell Wray, Beamsville, son of Mrs. George Wray, Hamilton. Rev. A. DeLoose conducted the ceremony. Tall standards of gladness and ferns decorated the church. Mrs. Clara Robinson, Waterford, presided at the organ, and Miss Blossom Claus, Beamsville, was the soloist. The bride was given in marriage by her father. She wore a lovely princess gown of orchid point draped over tulle, which had a redingote of matching lace fashioned with panels, and full puffed sleeves. Her small hat was of orchid crepe, finely tucked, and she wore lace mittens and dainty silver sandals. Her nosegay was of orchids and lilies of the valley. Miss Agnes Wray, sister of the groom, was the bridesmaid, wearing a frock of pink lace and tulle, with matching accessories, and carrying pink roses. Little Rachel Thompson was flower girl, frocked in blue point despit, wearing a bandeau of pink rosebuds, and carrying rosebuds. Mr. Murray Van Every, brother of the bride, was best man. The ushers were Mr. James Carson and Dr. W. L. Whitehead, Hamilton. A reception was held at the home of the bride's parents, King street east, Beamsville. The house was decorated with gladioli and ferns. The bride's table was arranged with pink sweet peas, pink roses and baby's breath and lighted with tall white tapers. The bride's mother wore blue French chiffon, with white hat and accessories, and a bouquet of white gardenias and lilies of the valley. The groom's mother wore black flowered chiffon over yellow tulle, black hat and bouquet of Tallisman roses. Going away on a motor trip to Quebec, and the Eastern States, the bride wore a navy blue crepe suit and swaggar coat, white hat and white accessories. Dr. and Mrs. Wray will reside in Beamsville.

STEWART — HARVEY

A wedding of much interest will take place at 4 o'clock Thursday in St. Andrew's Presbyterian church, Beamsville, when Rev. Stewart Woods of Jordan will unite in marriage Florence Eileen, daughter of Mr. and Mrs. Henry Harvey and Harland Stewart, son of Mrs. Harley Stewart and the late Mr. Stewart, all of Beamsville.

The bride entering the church on the arm of her father, will be gowned in blue net over a slip of blue satin, and wearing a long veil of blue

net, and silver slippers. Her bouquet will be gladioli and fern. Miss Kathleen Harvey in pink organza with silver bandeau will be her sister's bridesmaid, and will also carry gladioli and fern.

Mr. Albert Stewart, brother of the groom, will be best man and the ushers are Mr. Jack Southward and Mr. George Prudhomme, of Beamsville.

Miss Audrey Stevens will preside at the organ and during the signing of the register Miss Marjorie Stewart will sing "I Love You Truly."

Following the ceremony a reception will be held at the home of the bride's parents for the immediate families. Assisting in receiving will be Mrs. Harvey, the bride's mother, in a gown of blue with grey accessories, while Mrs. Harley Stewart, mother of the groom will be wearing a white costume with picture hat.

Table appointments will be carried out in a color scheme of pink and white.

Later Mr. and Mrs. Stewart will leave for a motor trip to Northern Ontario, the bride travelling in a British tan swaggar suit with brown accessories. On their return they will reside in Lincoln Ave., Beamsville. Out-of-town guests will be present from Toronto, Kitchener, St. Catharines, Hamilton and Grimsby.

Late S. A. Metter Knew Jesse James, The Famous Outlaw

Simeon Austin Metter, one of the best known men in Niagara Peninsula, was buried Monday, July 27th, in N. Pelham Cemetery, near which he had farmed for over half a century.

Mr. Metter was fond of telling of his friendship for the famous outlaw, Jesse James, who flourished in the West a generation ago. When a young man, Mr. Metter went West, and lived for a time a neighbor to the James family, in a small town. He became very intimate with the outlaw. Jesse James once whittled a walking cane from a piece of stout wood, and on it carved a skull and crossbones. "When I die this cane is yours," he told Mr. Metter. When Jesse James was shot dead in his home, the cane was given to John Drennan, a neighbor, to hand to Mr. Metter.

Mr. Drennan was born in Niagara Peninsula, and went West also. His widow is now living in Buffalo, and has the noted cane. Mr. Metter also owned another conspicuous walking stick. It was whittled by John Drennan from a hickory stick, and in it he bore small holes in which he plugged a bit of wood taken from trees from every State in the U.S.

TEN CARS MEET WITH MISHAP

(Continued from page 1)
badly, particularly in wet weather. Police and highway employees, however, claim the fault rests with the drivers. The regulation highway curve signs, checkerboard and bull's eye give warning of the curve, but still the accidents happen.

NOTED RADIO ENTERTAINERS WHO WILL BE HEARD AT GRIMSBY BAND CARNIVAL, AUGUST 13th.

That inimitable trio of entertainers, Unk, Dunk and Mike, are hitting the high spots in the radio world these days. From a humble beginning, the lads have gone a long way since winning a Major Bowes' award in May, and in August they set sail for London, England, as members of the Major's first English travelling vaudeville unit. Above are seen the members of the trio, Michael Bertola, Chester Duncan and Morley Wilson, with Major Bowes.

Mr. and Mrs. Chas. Healing Observe Diamond Wedding

The following item which appeared in the Times and Gazette, Clacton, England, will be of interest to Grimsby friends, Mrs. Healing being a sister of Mrs. C. H. Bromley, who with Mr. Bromley, were residents of Grimsby for many years prior to moving to Hamilton, Bermuda.

A golden telegram of congratulations from the King is one of the most treasured possessions of Mr. and Mrs. Charles Healing, of "Franklyn," Thoroughgood-road, Clacton, who celebrated their diamond wedding on Saturday.

"The King sends you hearty congratulations and good wishes on your diamond wedding day," was the text of the message they received.

There are only two days difference in age between Mr. and Mrs. Healing, for Mr. Healing was born on March 8, 1856, and Mrs. Healing on March 6.

Mr. Healing and Miss Charlotte Vouden, as she was then, were married sixty years ago on Saturday at St. George's Church, in the Borough High-street, London.

Before retiring, Mr. Healing was a builder and they resided at Ilford and Hornchurch before coming to Clacton twelve years ago.

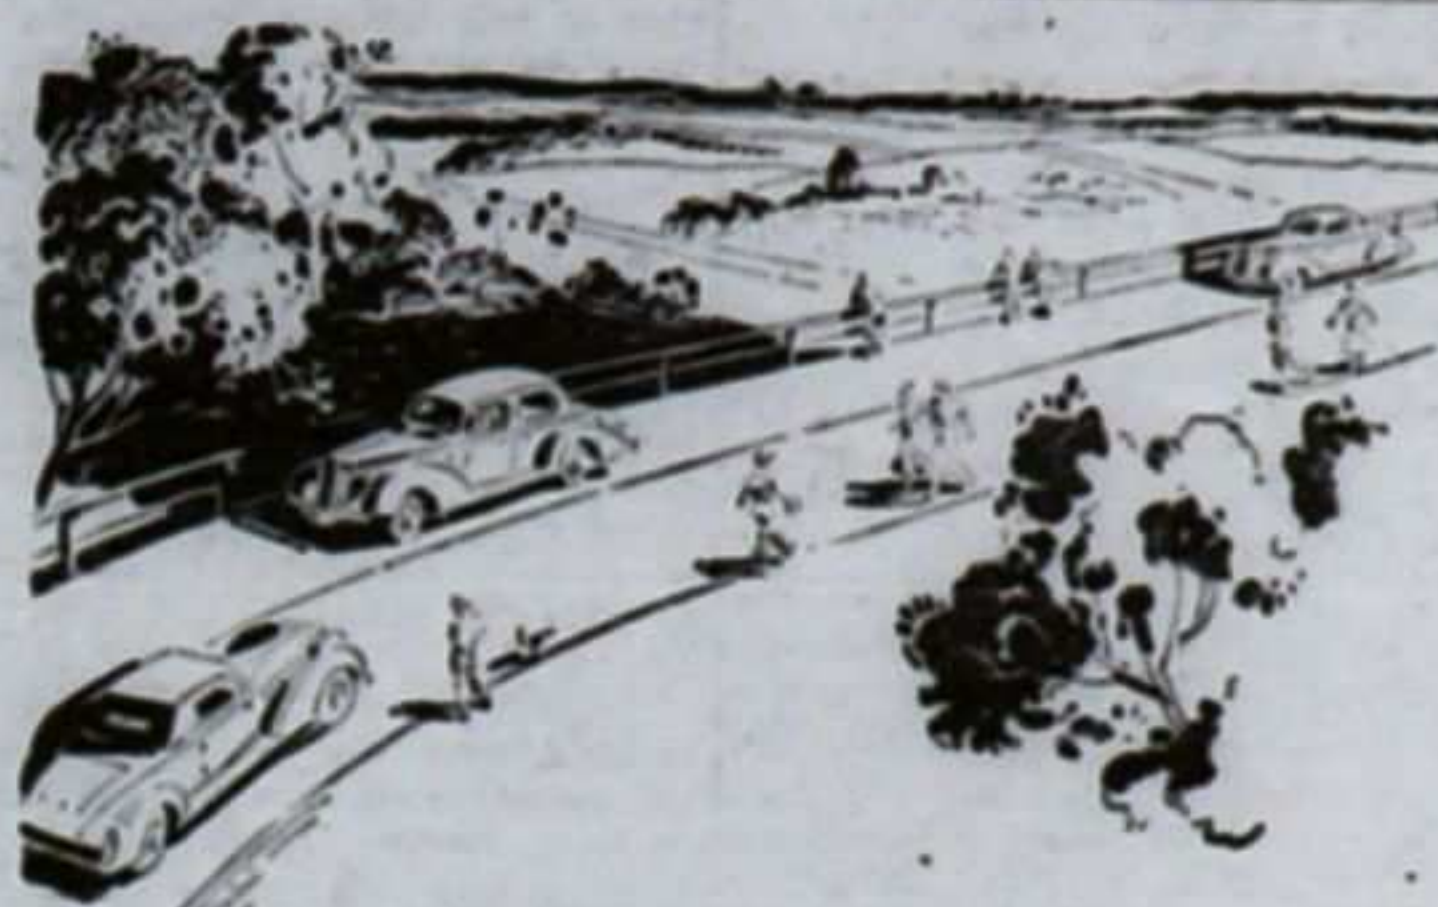

Mr. Healing has always been an ardent church worker and was a deacon of the Coverdale Congregational Chapel, Limehouse, for over twenty years.

A party of nearly fifty guests, which included Mr. and Mrs. Healing's seven children, ten grandchildren and seven great-grandchildren, assembled at Oulton Hall, Clacton, on Saturday, to celebrate the event.

Over 70 letters and telegrams of congratulations were received.

HAMILTON INCLINE TO BE CLOSED

The Wentworth street incline, long one of the landmarks of Hamilton, will suspend operations on August 1, it was announced Saturday in a letter from George Webb, president of the company, to James Berry, city clerk.

To Those Who WALK... May I say a word to you?

WE ALL KNOW that it takes at least two to make an accident—you need never be one such person if you "Try Courtesy" and walk with full regard for the motorist and his problem of driving a ton of machinery.

In previous messages, I have been appealing to motorists to "Try Courtesy", when they drive, for their own sakes as well as for yours. Today, I am appealing to you pedestrians to "Try Courtesy" for your own sakes as well as for that of the motorist.

Let us remember that a motor car is a big heavy piece of moving machinery weighing a ton or more and that to stop it or speed it up instantly is seldom possible. You, on the other hand, as a pedestrian, can stop or move more quickly on the instant.

So when you are walking on the same thoroughfare as the one on which the motorist is driving, "Try Courtesy".

Cross the streets with the green signal or if there is none, cross at a reasonably smart walk.

Refrain from jay-walking for this reason: motorists drive their cars according to what they expect the traffic immediately around them to do. And they don't expect pedestrians to go jay-walking. Cross at the crossings where the motorists expect you to cross and for which the motorist makes allowances by slowing down.

When walking at night where there is no sidewalk, carry a flashlight or wear a light garment which the headlights of the oncoming motor car will "pick up".

Courtesy on foot as well as courtesy at the wheel is the mark of a true gentleman. I appeal to you to "Try Courtesy" and set a good example which will make our city streets and country highways safer for everyone.

Sincerely yours,

B. J. Dusen

Household Science

By
SUSAN FLETCHER

A welcome awaits South Africa's golden berry in Canada. Word has been received that the newest table delicacy to reach Canada will be presented to Canadian women at the South African exhibit at the Canadian National Exhibition. A shipment of this fruit which is canned and is made into delicious jam has arrived at the office of the South African Trade Commissioner at Montreal to gether with other samples of the South African canned goods.

The "Cap gooseberry" as the golden berry is sometimes called has distinction in flavour and colour. It is rightly named for the berry and the juice is a rich golden color. As for the rare and delectable flavour, Canadian housewives will soon have an opportunity to judge in this detail. Sufficient to say that when an introduction to the golden berry was received by a Canadian woman recently at the Highland Agricultural Fair held recently at Melrose, the golden berry won praise and approval from the group of housewives who were requested to "taste and try."

"When are they coming to Canada?" the question was asked by the Canadians in the group. "We want them. They may not rival our Vancouver loganberry but they will certainly stand in high favour."

The answer received from the demonstrator for the South African Exhibit at the Scottish fair was "They will be at the Canadian National Exhibition this fall."

But as yet golden berries are not purchasable in Canada. The Canadian National Exhibition will have the honour of introducing them to Canadian housekeepers.

A recent inquiry sent to the South African Trade office in Montreal brought the assurance from the Commissioner that golden berries were already in Canada. In addition to this information, the Commissioner gave information about this new fruit.

The berry, he said, grows in a husk on a small bush about two feet high. The fruit is enclosed in a husk resembling the flower known in Canada as "Jack-o-lantern." The South African plant has a husk of a buff color. And when the berry is ripe the husk becomes dry like paper and the fruit enclosed becomes a bright golden

orange. It may be eaten then like a cherry.

The golden berries, canned, are round, golden and full of juice. The delectable flavour of the juice is noticeable at once. The fruit is full of juice when eaten. The berry also appears on the market as a jam and this is equally as pleasing to the taste. Canadian housekeepers will no doubt await some interesting cookery recipes in which they may use the golden berries. The berries are of course used with pastry, much as the cherries and gooseberries are used.

England and Scotland have known the golden berries for a time and a definite place has been made for this Empire product on the pantry shelves of the households of the British Isles; Canada; the sister Dominion is more than likely to give the fruit a welcome.

THIS WEEK'S WINNERS

Lemon and Orange Nectar

Boil together for five minutes: 2 lbs. sugar; 1½ quarts water; grated rind of four lemons; grated rind of three oranges. Then add the juice of four lemons; juice of three oranges; 1 ounce of tartaric acid; small pinch of salt.

Stir well, remove from fire, strain and bottle. Keep in a cool place.

A tablespoon full or a little more added to a glass of water makes a very refreshing drink.

It is very nice added to fruit juices, such as rhubarb, pineapple, gingerale or whatever happens to be on hand; or it may be served full strength with crushed ice.

The grated rinds which have been strained from the syrup makes a very flavoured apple sauce or rhubarb.

—Miss Dorothy U. Gladstone, Highgate, Ontario, R.R. No. 2.

Attention!

We will pay \$1.00 on publication for the best salad dish or refreshing drink recipe received.

HOW TO ENTER CONTEST

Plainly write or print out the ingredients and method of your favorite main-course dish and send it together with name and address to Home Hints, Room 421, 73 West Adelaide Street, Toronto.

King's Cup Victor

Charles Gardner, pilot of the Percival Vega Gull machine with Giles Guthrie as a passenger, won the King's Cup Air Race, the greatest air event of the year in Britain, which lasted two days, starting and finishing at Hatfield Airfield, Hertfordshire. This picture shows Gardner (glasses) and Guthrie being chaired after their victory.

Kaye Don Arrives for Speedboat Classic

Kaye Don (right), British sportsman and speedboat racer, with Frank Hallam, wealthy Birmingham sportsman, as they arrived in New York on Europa. Don piloted the Horace E. Dodge entry in the Golden Cup races at Lake George, N.Y.

The Will of Success

Every morning, before you begin your work, hold in your mind the picture and register the vow of masterfulness. Let that one ideal remain in your mind all through the day. Think masterfulness, radiate masterfulness, express it in your every act, do everything to a complete finish.

Do not allow yourself to dawdle, to waver in your decision, or permit yourself to do fool things, during the day. Use levelheadedness, good judgment in every act. Go about your work with the consciousness of your masterfulness, holding the ideal of your superiority, your efficiency, your ability to reach the heights of excellence.

Resolve every morning that you will make a red-letter day of that day, for if you are going to make your whole life a masterpiece each day must be a masterpiece.

New Consul

Dr. Paolo de Simone, recently appointed Royal Italian Consul in Montreal, to succeed Chevalier Brigid.

Imitation flowers are one of this year's fashion fads on which British women will spend nearly \$1,000,000 during the summer.

PROBLEMS OF EVERY DAY LIFE

By Dr. M. M. Lappin

Panicky

"I am an unmarried woman, and have always enjoyed fair health, but of late I have been subject to queer spells in which I get very panicky and feel I will perhaps go and do something terrible. The doctor says there is nothing wrong with me and I don't feel ill. Can you tell me what gives rise to such feelings?"

Why yes! You are too much in focus with your own consciousness. You should think less about yourself and more about others.

Now that is not intended in any unkind way, but from your letter it is obvious that that is just your trouble—you are allowing your mind to dwell too much upon yourself. Perhaps you will tell me you cannot help it, and I dare say you can't. It may be due to the fact that certain emotions have been denied a satisfactory outlet, and that you are deliberately repressing perfectly legitimate and natural desires. That is quite common, and invariably it leads to symptoms just such as you have described.

And now for the cure. It lies entirely with yourself. Find some new interests in life which will give you an opportunity to express yourself and provide an outlet for those pent up emotions which are at the root of your trouble. There is much that you can do. Why not give yourself to some kind of social work? Go out and find some lonely person needing companionship, or some invalid or aged person whom you could help. Perhaps you could find an interest in some such organization as the Girl

Guides where you could render helpful service to others and incidentally to yourself.

Whatever else you do, you must not allow yourself to dwell on any morbid thoughts that come into your mind. The moment they enter, switch the mind to something else. Get up and go for a walk, or take a good cheery book and read it,—do anything at all that will serve to divert your mind from those depressing thoughts which are getting you down.

Perhaps you could find some absorbing interest in taking up some new line of study. Some folks have found that helpful. If you decide on this, you should choose some subject in which you can really be interested and, if possible, which will lead you to read literature of the happy and inspirational sort. Above all, don't give way to negative thinking. Think positively and constructively.

When all is said, the teaching of the Great Teacher who said, "He that will lose his life shall find life" has never been surpassed. That is why I always advise trying to live for the sake of others. Those who live for others always find happiness and rarely are victims of morbidity.

NOTE: The writer of this column is a trained psychologist and an author of several works. He is willing to deal with your problem and give you the benefit of his wide experience. Questions regarding PROBLEMS OF EVERY DAY LIFE should be addressed to: Dr. M. M. Lappin, Room 421, 73 Adelaide St. West, Toronto, Ontario. Enclose a 3 cent stamped addressed envelope for reply.

Some of Empire Styles Reviewed

In the best empires it has been the rule that the tall should swing the dog, so to speak. Alexander the Great started with a few thousand square miles in Macedonia and ran up his stake into an empire extending from India to the Sahara. All of ancient Italy had perhaps a 5 per cent of the area of a Roman empire of 2,000,000 square miles and perhaps 10 per cent of the Roman Empire's 80,000,000 inhabitants.

A mere speck in the mists of the North Atlantic known as Great Britain has an area of 90,000 square miles, or less than twice the size of New York state. It rules an empire of 12,000,000 square miles or 150 times as big as itself. It rules over 500,000,000 people or more than ten times its own population.

Holland slightly bigger than Vermont, has an empire of 800,000 square miles, or nearly seventy times its own size. The 9,000,000 inhabitants of the Netherlands homeland have no fewer than 60,000,000 fellow-subjects in the East Indies, not all of whom have been spoiled by American tourists on round-the-world cruises stopping off at Bali.

Holland's 60,000,000 colonials are commercially a bigger asset than the same number of people in the French colonial empire. The latter are scattered over nearly 4,000,000 square miles of territory. It means twenty times the area of France and one and a half times her population.

Finally, we must not overlook Portugal. At any rate, Portugal is not being overlooked by cynical observers cogitating this new problem of an equitable "redistribution" of colonies and raw materials. Portugal at home is two-thirds the size of New York State, but she has two big slices on either side of Africa aggregating to nearly 800,000 square miles. On them she has only ten African subjects to the mile, which is rather thin. But for a big nation looking for glory, no square miles can be too sandy or too stony or swampy. All kinds of soil are adapted for raising prestige.

Enough has been said to show the exceptional status of Italy in imperial modes. Her home population is five times as large as the population of the Ethiopian jewel in the new imperial diadem. The land ratio, are much better. Ethiopia is anywhere from three to five times as big in the area as the Italian peninsula.

But in favour of Mussolini's enterprise is the fact that he proposes to "civilize" Italian peasants in Ethiopia. He began by saying 400,000 colonists, which might mean four or five times as many men, women and children. It is now stated that a list of 200,000 families for emigration has already been drawn up. They are the families of men already in Africa. That would be a revival of the old Roman colonies by which the city on the Tiber killed two birds with one stone. She slanted small garrisons of veterans in conquered territory and she solved the problem of a surplus population at home.

Planting 200,000 Italian families in Ethiopia is a big task. Other empires today have done nothing like it. The number of Englishmen who go out to be rubber planters in Malaya, or coffee and cotton planters in Kenya, is small. Japanese do not readily emigrate to the Asiatic mainland. After 20 years there may be a quarter of a million Japanese among 25,000,000 Chinese and others in Manchuria. After more than a century there are about half a million Frenchmen in Algeria.

But it may be that the Italian peasant is a better immigrant and colonizer than other peoples. In any case, Italian peasants now live under a master who may go in for compulsory emigration to Ethiopia. The ancient Mediterranean world was well acquainted with such mass colonization.

Accused "Finger Man" and Wife in Court

Jack Peifer, accused of being the "finger man" in the \$100,000 William Hamm kidnapping, pictured with his wife in St. Paul Federal Court during recess in his trial. He denied all charges connecting him with the crime.

American Canoe Squad Sails for Olympics

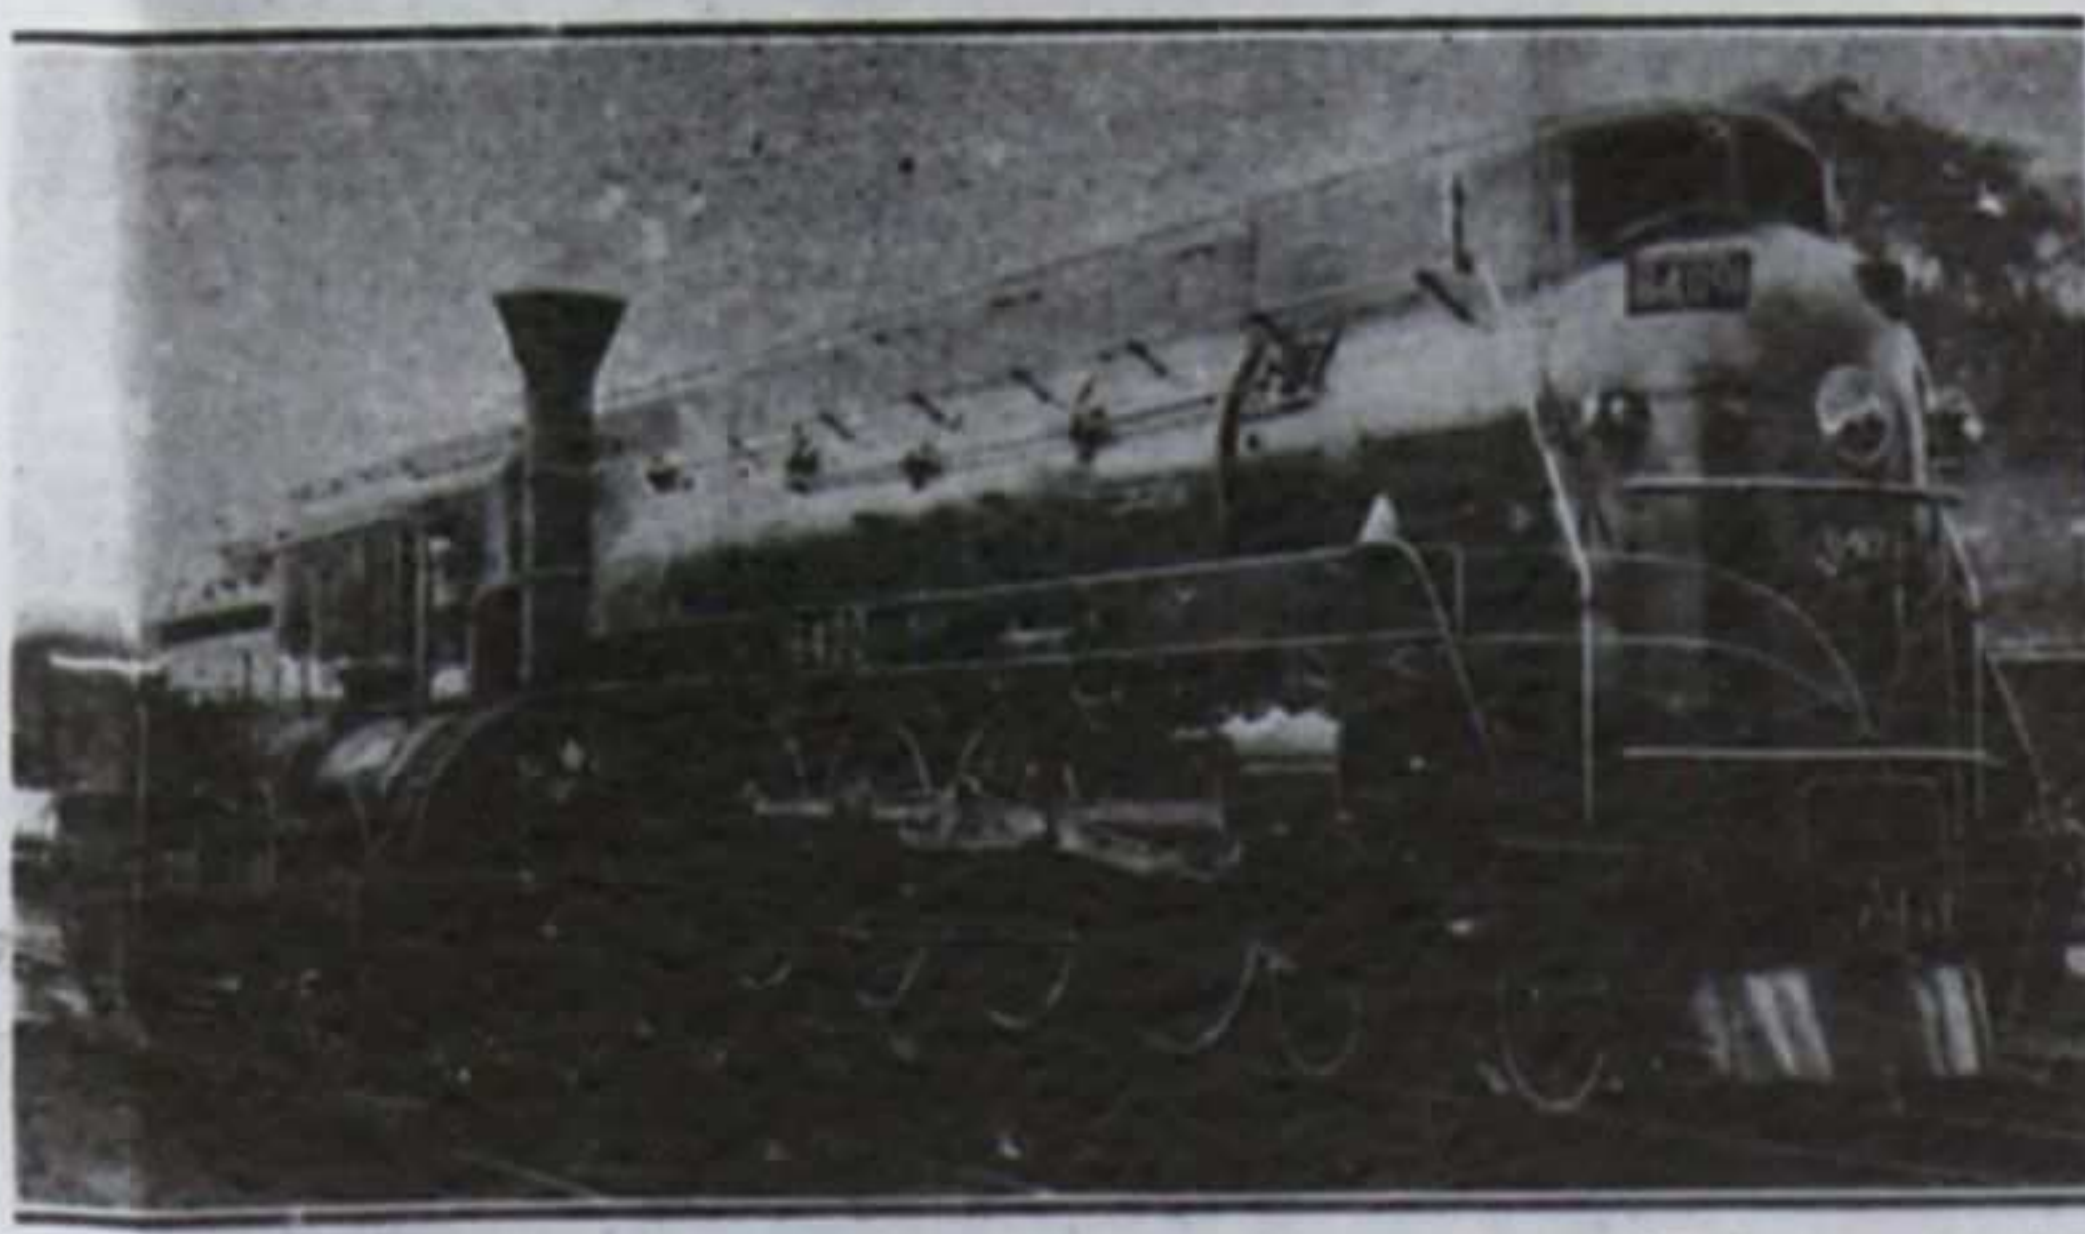

The last members of the Olympic team, the canoe squad, as they sailed on President Harding. Standing: H. M. Davidson, William Lofgren, Ernie Riedel, Burr Folks, Joseph Hasenfus, Robert Graf, Coach Albert Bauer and Manager Clausen. Kneeling: John Lysak, Albert Wanner, James O'Rourke, William Gaehtler, Clarence McNutt and Walter Hasenfus.

Getting Away from Stilted Forms of Sport

Beach sports went on a higher plane when these Venice, Cal., girls invented this combination game of tennis, handball and stilt walking. It probably won't be very popular because it is a pretty hard game to tumble to.

Old and New Locomotives

The Dorchester, Canada's first locomotive, is pictured alongside the world's largest streamlined locomotive, Canadian National 6400, at the celebrations marking the centenary of railway operations in Canada, a striking contrast showing the advance made in motive power since railway operation began in the Dominion.

Women on Farms

Comments the Peterborough Examiner—The Stratford Beacon-Herald had a picture of the ten-year-old daughter of Angus Dickson, M.P.P., driving a tractor which had been pulling the hay wagon and the hay loader. She had done it for several hot days because it was not possible to get any other person to do it. But there is nothing so very unusual about girls and women doing manual labor on a farm. Plenty of them do it. In almost every section of the province one can see a woman driving a team when the sheaves are being taken in; the daughter very often drives the horse on the hay fork. There are times on the farm when every hour counts and every member of the family knows it. We have seen women following the binder, lending a hand at stooking up, but that may have been under unusual circumstances. But the truth is that the women of Ontario farms have never reached the stage when they are going to see their men folks stuck. If there's anything to do in the rush season then they're ready to take a hand at it.

The Week's News of
The Surrounding District

THIRTY MOUNTAIN

The many friends of Mrs. Harvey
Schott, nee Irene Hurst, were shocked
to hear of her death on Saturday. The
sympathy of the community is ex-
tended to the bereaved families.

Mr. B. S. Miller, sheriff of Allen
County, Lima, Ohio, called on Egbert
Hurst on Sunday.

Mr. and Mrs. J. Meitzner and Mr.
and Mrs. R. Gibson spent Sunday in
Guelph visiting Mr. and Mrs. Sobey.

The Wilcox reunion was held at
Grimsby Beach, August 3rd. Relatives
gathered from far and near and a
large crowd was present.

Mr. and Mrs. Lloyd Hurst spent
Sunday with Mr. and Mrs. E. Hurst.

Mr. and Mrs. R. Scott and daugh-
ter of Niagara Falls, spent the week-
end with Mr. and Mrs. W. Webb.

A lovely shower was held at the
home of Mr. and Mrs. Thos. Webb on
Friday night, about one hundred
young and old gathered to express
good wishes to both. A lovely lot of
gifts were received.

GRASSIE

Mr. and Mrs. F. Williams, Mrs. C.
Russells and Mr. G. Russells, of Leam-
ington, were weekend guests at F.
Black's and M. S. Merritt's.

Miss Irene Monaghan, of St. Cath-
arines, spent Sunday at her home.

Mr. and Mrs. Chas. Vickers and
baby son visited at Wm. Duck's on
Sunday.

Mrs. E. Johnston, of Brantford, is
visiting with her daughter, Mrs. J. C.
Johnston.

Mr. and Mrs. C. Merritt and little
son, of Hamilton, visited with Mr. and
Mrs. F. Black last Wednesday.

The Grassie W. I. Annual Picnic is
to be held at Mrs. A. W. Metcalf's on
Thursday, Aug. 13. (Picnic lunch at
noon). The Mountain Reading Club
have been invited as guests. A good
programme of races, contests, etc., is
being prepared by the sports com-
mittee. There will also be a refresh-
ment booth on the grounds. Don't
forget the day.

WINONA

The Winona branch of the Canadian
Legion is making plans to start a class
in calisthenics in the near future, at
Chateau Vimy, their new headquar-
ters, under the command of Comrade
Hilton.

Rosebury lodge, S.O.E., held its an-
nual picnic at Grimsby Beach on Sa-
turday afternoon.

John Van Duzer is at Onondaga
camp, Minden, Ontario.

Dr. Graham, of Stoney Creek, had
charge of the service at Fifty church
Sunday morning in the absence of
Rev. F. Manning, who officiated at a
special service at Listowel.

BEAMSVILLE

Little damage resulted Thursday af-
ternoon two miles west of Beamsville
when a truck owned by James Fallet-
ta, 45 Simcoe Street, Hamilton, colli-
ded with a car driven by James F.
Burns, 5805 West Washington Boule-
vard, Milwaukee, Wisconsin.

Miss Julia Oltshar has returned
home following a holiday visit to
Paisley.

Mrs. Roy Saunders learned on
Thursday morning of the death of her
mother in Hamilton.

In honour of the approaching wed-
ding of Miss Isabel Cosby a miscel-
laneous shower was held at the home
of Miss Connie Juhike on Wednesday
night last.

Miss Isabel Cosby has been favour-
ed with a number of very enjoyable
functions the past few days in view
of her marriage on Wednesday of this
week. Some hostesses have been Miss
Ruth Tallman, Miss Connie Juhike,
Miss Dorothy Aude, Niagarason-the-
Lake, and the local staff of the Bell
Telephone company.

Thursday night St. Ann's got all
the breaks in the first game of the
semifinals of the fruit belt closing
softball games. When the visitors hit,
they planted the ball in the safety
zone and generally with a man or two
on the bases. It was not until the final
lap that by extraordinary good
luck the locals were able to add two
more to their count, making the score
nine for St. Ann's and three for
Beamsville.

ST. CATHARINES TO PRESS
CLAIMS IN REGARD TO
NEW HIGHWAY

The executive of the St. Catharines
Retail Merchants Association, meet-
ing Thursday last at the Hotel Leon-
ard, appointed a committee to attend
a conference on the route of the pro-
posed new highway to be called by
Mayor W. J. Westwood.

The executive discussed the new
highway and came to the conclusion
that the city should press its claims
for the improvement of the existing
roadway. The opinion was expressed
that many tourists would continue to
use the present highway even after
the construction of the new traffic
avenue, preferring a route of scenic
beauty to a high speed thoroughfare.

The merchants were also of the op-
inion that the route of the new high-
way would be determined by the pro-
vincial government, and some even
expressed doubts that it would ever be
completed.

REPORT SPINACH SHORTAGE

An independent canning factory,
Dabald's, Effingham, took so many
orders for canned spinach by chain
stores in Toronto and Hamilton, that
it finds it cannot fill the orders. This
was largely due to the drought. The
factory is now arranging with some
of the spinach growers in this section
to try and grow another crop so that
the shortage may be overcome.

So, a number of leading growers
have set out a second crop.

BIG INCREASE IN ST.
CATHARINES BUILDING
PERMITS FOR JULY

Building permits for the month of
July, including a \$250,000 permit for
the plants of the McKinnon Branch
of General Motors, have sent the to-
tal to a new high for several years
past in the city of St. Catharines.

The July total is \$261,905.00 and
the total for the seven months is \$352-
385.00 the highest figure which build-
ing permits have reached for fully six
years. In addition to the McKinnon
permit, the list included nine dwell-
ings, many in the \$5,000 class, and
general repair and construction work.

Permits for July of last year to-
talled \$26,830.00 and the total for the
seven months of last year was \$98-
594.00.

Foreign Trade Is
Growing Rapidly
Says Arthur Damude

"Great strides have been made in
increasing Canada's trade in the past
eighteen months and a new era of
prosperity is being ushered in," Arth-
ur B. Damude, Liberal member of
Parliament for Welland County, told
5,000 farmers at the thirty-eighth
annual Welland County Farmers' In-
stitute picnic at Crystal Beach on
Monday.

"The new United States-Canada re-
ciprocal trade treaty has particularly
spurred the sale of cattle, hogs, hides
and lumber to the United States. The
result is an immense amount of ad-
ditional money is going into circula-
tion. Trade with Belgium and Aus-
tralia is also showing large advances.

"Statistics show national trade has
increased 15 per cent. In the first six
months of the current year. June
revenue is up \$7,000,000 over last
year.

"With revenue increasing and ex-
penditures decreasing, soon the bur-
den of taxation will be shifted from
the shoulders of the citizens. Savings
through Governmental borrowings
from the Bank of Canada on short-
term loans at interest rates of less
than 1 per cent. resulted in a saving
of \$3,000,000 alone last month," he
said.

Other speakers were E. J. Anderson,
M.L.A., Welland; W. L. Houck, M.L.A.,
Niagara Falls; F. C. Patterson, Dis-
trict Agricultural Representative;
Wallace Tufts oldest member of the
Farmers' Institute; Miss Viola Nu-
gent, representing the Junior Women's
Institute; J. H. Rolph, representing
Welland County Children's Aid Socie-
ty, and Warden Fred Kilgour of Wel-
land County. President F. H. Clark
of Thorold presided.

Canada Year
Book For 1936

The publication of the 1936 edition
of the Canada Year Book is announced
by the General Statistics Branch of
the Dominion Bureau of Statistics.
The Canada Year Book is the official
statistical annual of the country and
contains a thoroughly up-to-date ac-
count of the natural resources of the
Dominion and their development, the
history of the country, its institutions,
its demography, the different branch-
es of production, trade, transportation,
finance, education, etc.—in brief, a
comprehensive study within the limits
of a single volume of the social and
economic condition of the Dominion.
This new edition has been thoroughly
revised throughout and includes in all
15 chapters the latest information
available up to the date of going to
press.

The 1936 Canada Year Book ex-
tends to over 1,150 pages, dealing with
every phase of the national life and
more especially with those susceptible
of statistical measurement. Attention
may be called to a special article,
"Canada on Vimy Ridge", prepared by
Colonel A. Fortescue Duguid, D.S.O.,
B.Sc., R.C.A., Director of the Histori-
cal Section (G.S.), Department of Na-
tional Defence. This is apropos in the
light of the pilgrimage to Vimy and
the official unveiling of the Vimy
Memorial arranged to take place this
month.

The death of His Majesty King
George V on Jan. 20, 1936, received
with deep sorrow throughout the Em-
pire and with world-wide regret, and
the succession of King Edward VIII
to the throne, have been appropri-
ately marked by the reproduction, as
frontispiece, of the official proclama-
tion of the government of Canada
made on Jan. 21, 1936, accompanied
by the latest official photographs, ob-
tained through the courtesy of the re-
spective court photographers.

The volume is illustrated by many
maps and diagrams and the latest
available data are everywhere includ-
ed.

Owing to the urgent need for econ-
omy in the distribution of government
publications, it has become necessary
to make a charge to all individuals re-
ceiving the Canada Year Book. Per-
sons requiring the Year Book may ob-
tain it from the King's Printer, Ot-
tawa, as long as the supply lasts, at
the price of \$1.50, which covers mere-
ly the cost of paper, printing and
binding. By a special concession, min-
isters of religion, bona-fide students
and school teachers may obtain paper-
bound copies at the nominal price of
50c each.

JURORS DRAFTED FOR
SUPREME COURT

Sheriff Fred Graves sat at the
County Building Monday morning to
draft jurors for the sittings of the
Supreme Court of Ontario and for the
General Sessions of the Peace and
County Court. The Supreme Court
will sit on September 14 at the Court
House, and the Sessions of the Peace
on December 8.

Peace Ballots To
Be Distributed

Peace ballots will be distributed
throughout the whole Niagara district
under the auspices of the peace cam-
paign congress. It is hoped to obtain
seventy-five thousand signatures in the
peninsula, which will be bound in a
huge book and presented to the inter-
national meeting of that organization
to be held under League of Nations
auspices at Geneva in September.

TO TEACH MUSIC IN
BURLINGTON HIGH SCHOOL

Music will be taught in the Burling-
ton high school next fall as part of the
regular curriculum and at a meeting
of the high school board final plans
will be considered for establishing the
course. Earlier in the year a commit-
tee from the I.O.G.E. and other or-
ganizations urged the board to con-
sider the adoption of a music course in
the school, under the direction of
Mrs. F. G. Russell. The cost will be
about \$200 annually, but in return the
government makes a grant of \$100 and
also pays 50 per cent. of the cost of
music and equipment. The expendi-
ture to be met by the board will there-
fore be small.

Trustee W. L. Smith stated that in
his opinion it is only a matter of a
few years until the adoption of music
in all schools will be compulsory. He
also stated that the annual music fe-
stivals are developing each year and re-
ceiving enthusiastic support by edu-
cationists of the province.

CAT RESCUED BY
GIRL SWIMMER

Crowds gathered along the banks of
the Welland canal on Saturday and
watched the rescue of "Spots," a black
and white-colored cat, by Virginia
McIntyre, 16-year-old Welland girl.

Virginia, swimming close to the east
bank, noticed the feline clinging to a
life-saving erble chain along the sheer
west wall and slithering in and out of
the water as it sought frantically to
stay above the surface. She immedi-
ately struck out for the opposite bank
and after an exhausting swim reach-
ed the cat in time. The battle then
began. The frightened cat scratched
its rescuer before Virginia was able to
take hold of it in one hand and swim
a distance of 20 yards to where the
bank sloped. She made two halts to
regain her wind in that distance, set-
ting the cat on the chain while rest-
ing. She finally reached the sloping
bank and carried the cat to earth.

Two years ago she pulled Richard
McMillan, seven, out of the canal after
he had fallen off a raft.

Canada's Railway Centenary

THIS year is Canada's railway
Centenary. On July 21st, 1836,
Canada's first steam train was oper-
ated between Laprairie and St. Johns,
Quebec, over the Champlain and St.
Lawrence Railway, the first link in
the chain of railways which now con-
stitute the Canadian National System.
The opening was made the occasion
for a gala celebration at which tribute
was paid by the leading citizens of
Lower Canada to the founders of the
Company. These far-seeing men,
whose immediate object was the
creation of a transportation link be-
tween Montreal and New York, were
pioneers of Canada's development.

But perhaps even they could not
visualize the vast country that would
be built up as a result of the introduc-
tion of the steam railway. The six-
teen miles of line over which the
"Dorchester", Canada's first loco-
motive, hauled the coaches carrying
the distinguished guests of the Com-
pany, has developed into the great
Canadian National System, with
24,000 miles of line serving Canada
from the Atlantic to the Pacific. The
drawing, depicting the start of the
first train, is from a painting by
Adam Sheriff Scott, A.R.C.A., and
is reproduced by courtesy of the
Royal Bank of Canada.

SAYS COUNCILS SHOULD
BE REPRESENTED ON
SCHOOL BOARDS

Advantages are seen by Mayor
Manning of Dundas in the proposals
to have representation from the mun-
icipal councils on such independent
bodies as boards of education. His
wondering remarked in discussing this
suggestion which was laid before
Premier Hepburn by the Ontario
Mayors' association, that a great deal,
however, depended on the action of
the council's representative.

"No doubt the board of education
would welcome having a member of
the council on the board," said the
mayor, "as it would give that body a
chance to get at first hand a real
statement about the financial situation
of the municipality. But if there was
an attempt to dictate, it would prob-
ably be resented, and little good

CARS DAMAGED

A motor accident occurred early
Friday night, when a car owned and
driven by Wesley Culp, of Vineland,
and one driven by Miss Myrtle Homs-
berger, also of Vineland, collided as
Mr. Culp was making a turn in a
driveway. Both cars were badly dam-
aged.

The pallbearers were directors of
the Vineland Growers Co-operative
Association: Messrs. Ezra Honsberg-
er, Melvin Honsberger, Wellington
Hunsberry, S. H. Ritenhouse, Law-
rence Hipple and Arthur Smith.

Canada's First Engine and World's Largest
Streamliner Featured at Railway CentenaryRailway Pioneers'
Hopes far Exceeded

Speaking at the recent celebra-
tion of Canada's railway centenary
held at St. Johns, Quebec, the
southern terminus of the Champlain
and St. Lawrence, the first line in
the Dominion, S. J. Hungerford,
president of the Canadian National
Railways, outlined the tremendous
strides that had been made in
railroading since he entered the
railway business 50 years ago.

"I can say in all truth that which
has been accomplished has trans-
cended the vision of the pioneers,"
Mr. Hungerford said. "Those who
planned, the Champlain and St.
Lawrence and brought it into being
no matter how optimistic they
might have been, could hardly have
foreseen what a mighty instrument
of national welfare the railway was
to be in Canada. The railway has
been, and is the mightiest single
force in the welding together of
Canada and in the preservation of
it as a nation. It is a mighty
servant of the people. When this
railway was conceived there was
likewise brought into being that
chain of circumstances which led
to the formation of the Canadian
National Railways, with its ser-
vices to every province of the
Dominion. It is the aim of the
Canadian National Railways, the
largest railway system on the North
American continent, still to be in
the vanguard of progress; to be a
worthy instrument in the develop-
ment of this great nation."

At the ceremony at St. Johns, Quebec, commemorating the one
hundredth anniversary of the operation of the first Canadian pas-
senger train, a full-sized model of the "Dorchester", the first Canadian
engine, was shown in comparison with one of the new 6400 type of
the Canadian National Railways, the largest streamlined locomotive
in the world. The "Dorchester", with tender, was 21 feet long; the
6400, with tender, 94 feet 7 1/2 inches. The 6400 is longer than the
entire passenger train of 1836.

The lower picture shows (from left to right) Mayor Camille
Houde, C.B.E., of Montreal, George F. Moran, S. J. Hungerford,
President, Canadian National System, and A. J. Shapter. Messrs.
Moran and Shapter, retired Canadian National Railways engineers
with over 50 years of service, impersonated the original crew of the
"Dorchester" at the celebration.
